

HORN LAKE FIRE & EMS

STANDARD OPERATING GUIDES

2025

MISSION

Our mission is to provide a safe, professional and courteous team that strives to exceed the expectations of the community and our organization. This mission requires our members to be part of a capable, aggressive, all-risk fire department that is focused on *"Preserving the Past and Protecting the Future"* of those we serve. Through our most valuable resource, our employees, we shall respond to a wide variety of Fire, Rescue and Emergency Medical calls in a timely manner.

VISION

The vision of the Horn Lake Fire Department is to be a progressive organization that leads the community in public safety. The service we provide will be of the highest quality afforded to the citizens of our community.

CORE VALUES

Service with: **PRIDE**

Professionalism will be demonstrated as we provide adaptable and sustainable fire department service with well-trained personnel, properly equipped to respond to evolving community risks with and from safe and appropriate physical resources.

Responsibility to our greatest asset, our Fire and EMS personnel

Integrity will be evident in our improved internal communications practices and delivery of enhanced public education and outreach efforts.

Diversity throughout our department will ensure we properly reflect and relate to the community served.

Empathy will be demonstrated in all interaction with our community, as we work to meet or exceed their expectations with the customer service they deserve.

Individual and department excellence will be realized as we hold one another accountable for fulfilling our mission, living our values, accomplishing our goals, and ensuring this vision becomes reality.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Manual of Operations

Subject: Introduction/Table of Contents

Code: 1

Adopted: 2025

1.01 Propose

To set forth and establish a standard, written source of departmental policies and procedures which will promote the effective and efficient operation of the Fire Department and its respective divisions.

1.02 Policy

The Horn Lake Fire Department shall establish an Operations Manual containing written, Standardized policies, procedures and regulations. Said manual shall be utilized by the Fire Department personnel as the official reference source of written guidelines pertaining to the departmental operations of an organizational, routine or emergency nature.

1.03 Authority

- A. Pursuant to the authority vested in the Fire Chief by the state law and local Ordinance, the Operations Manual is hereby established as the standard, written reference source of Departmental Rules, Regulations, Policies, Procedures and Operations.
- B. The contents of the Operations Manual **will not supersede the City Policy.**

1.04 Responsibilities

- A. It shall be the responsibility of all employees to familiarize themselves with and conform to the policies, regulations and procedures contained within the Operations Manual.
- B. It shall be the responsibility of all Fire Department Officers to supervise and command their subordinates within the guidelines and philosophies contained within the Operations Manual.

1.05 Philosophy

- A. Policies in the form of reasonable guidelines are necessary for the proper operation of any organization. Such policies must be standardized in a workable, readable, format, which is available to all levels of the organization.
- B. Knowledge of these policies and procedures by Fire Department members is essential for the maintenance of discipline and the development of teamwork and moral.
- C. The policies, procedures and regulations contained within this Manual are intended to be reasonable and workable guidelines of a positive nature.
- D. Periodic review and revision of policies and operational procedures, recognized as necessary, has been incorporated as part of this manual.
- E. This Manual of Operations cannot be expected to provide a solution to every question or problem, which may arise in an organization established to provide an emergency service delivery system. It is expected, however, that it will be sufficiently comprehensive to cover, either in a specific or general way, the majority of operational and administrative activities, which involve the members of the Horn Lake Fire Department.
- F. The existence of these written guidelines is not intended to limit any member in the exercise of judgment or initiative in taking the action a reasonable person would take in extraordinary situations, which may arise in the fire service. Much by necessity must be left to the loyalty, integrity and discretion of the members.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Manual of Operations

Subject: Manual Organization and Use

Code: 2

Adopted: 2025

2.01 Purpose

To explain the organization and usage of the Horn Lake Fire Department Manual of Operations so that Fire Department personnel will understand how to correctly and fully utilize the Manual of Operations.

2.02 Policy

- A. The Operations Manual shall contain sufficient information pertaining to its organization and usage which will assist Fire Department personnel in their use and understanding of the Manual.
- B. Fire Department personnel shall familiarize themselves with the organization and use of the Operations Manual.

2.03 Content

All Rules, Regulations, Operational or Administrative Procedures, Memos, General Orders and Special Orders of the Horn Lake Fire Department, which are of concern to its members, are contained within the Operations Manual.

2.04 Organization

- A. The Manual is composed of one (1) book and is identified by a numeric number and its title.
- B. The number and title divide each chapter into subjects which are identified.
- C. Each subject is divided into sections, which are identified by a decimal number. This decimal number is composed of the whole number assigned to the subject and a decimal number ranging from .01 to .99, depending upon the number of sections. *For example*, the third section of the fourth subject would receive the following section number, 4.03.
- D. The book contains a Table of Contents, which lists its chapters and subjects.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Definition of Terms
Subject: Terminology
Code: 3
Adopted: 2025

3.01 Purpose

To provide members with a list of basic Fire Department terms and their working definitions in order to facilitate better written and verbal communication within the Horn Lake Fire Department.

3.02 Policy

- A. A list of basic Fire Department terms and their working definitions shall be provided in the Operations Manual.
- B. Although not totally inclusive, those terms and definitions contained within said list shall be officially recognized by all members of the Fire Department.

3.03 Definitions

As per Fire Department Policy, the following list of terms and definitions is included in the Operations Manual.

1. **Active Duty:** That period of time during which a member shall be at a designated place of assignment.
2. **Acting Chief:** A person's temporary appointment to the position of Chief Officer.
3. **Acting Position:** A temporary position at a higher classification occupied for a specific period of time by any member so designated.
4. **Administrative Office:** Office of the Chief.
5. **Aerial Apparatus:** A piece of automotive fire equipment meeting NFPA 1901 Standards and equipped with an aerial ladder.
6. **Alarm:** A notification to Fire Department units to initiate a response.
7. **Apparatus:** Any motorized vehicle carrying fire fighting tools, equipment or personnel.
8. **Battalion Chief:** Classification of rank. A Chief Officer commanding a shift, division, battalion, or other subdivision of the department.
9. **Chain of Command:** Relationship of responsibility and authority, as shown on organizational chart.
10. **Channels Through:** The transmission of communications through the chain of command, in ascending or descending order.

11. **Chief:** The Fire Chief, the Chief administrator of the department
12. **Chief Officers:** Those members holding the rank of Chief, Deputy Chief, Fire Marshal, Battalion Chief.
13. **City:** The City Of Horn Lake.
14. **Communications:** Interchange of correspondence or message; verbal or written.
15. **Company:** Engine, Truck, or Ambulance members under the command of a company officer, assigned to a station with apparatus.
16. **Company Fire Inspection District:** The area in which a company has specific responsibility for the fire prevention inspection of assigned occupancies.
17. **Company Inspection:** An inspection by the fire company (ies) of occupancy or premises for the purpose of code enforcement and preplanning.
18. **Company Officer:** Any officer in command of a company and their assigned quarters.
19. **Department:** Horn Lake Fire Department
20. **Deputy Chief:** Classification of rank, assistant to the Chief.
21. **Detail:** One or more members given a routine or special assignment.
22. **Division:** A major sub-division of the Fire Department with specific responsibilities.
23. **Drill:** A training session.
24. **Duty Tours:** "Failing to report" All members and employees are assigned specific tours of duty and/or regular duty hours. In the case of firefighting and EMS personnel, the normal duty tour begins at 0700 hours, daily. All members and employees are made aware of the time they are required to report. Any member or employee that has not reported to their specified duty station at the prescribed time will be reported as "Failing To Show."
25. **Emergency Order:** Order of a temporary nature pertaining to a particular emergency and valid until the emergency no longer exists. May be written or oral.
26. **Emergency Vehicle:** Any vehicle owned and operated by the Fire Department and defined as such by the Mississippi Motor Vehicle Code.
27. **Engine Company:** A mobile Engine usually carrying 750 gallons of water or more and no less than four (4) persons on the apparatus.
28. **Equipment:** All articles used by the department, or other than apparatus, quarters, and expendable supplies.
29. **Evolution:** Practicable drill simulating an actual fire fighting situation.
30. **False Alarm:** An alarm given with malicious intent or without reasonable cause.
31. **Fire Apparatus:** Automotive vehicles with a specific fire fighting function, designated in accordance with NFPA 1901 Standards, used to carry fire fighting personnel and equipment.
32. **Fire Fighter:** Classification of rank. First level safety member who performs general Fire Department duties under the supervision of a Company Officer.

33. **Fire Investigator:** Classification of rank also known as the Fire Marshal.
34. **Fire Ground:** Operational area at a fire under command of an incident commander; the place where fire fighting operations are being conducted.
35. **Fire Prevention Officer:** A department member assigned the duties and responsibilities of fire prevention.
36. **First Alarm District:** The area in which a company is normally the first to arrive at the scene of an emergency.
37. **First In Officer:** The first Fire Department officer to arrive at the scene of an emergency.
38. **General Orders:** Any order of permanent character, which requires the attention of the entire department.
39. **Goal:** A general statement of aim and direction, which establishes the overall mission for an organization.
40. **Immediate Family:** The immediate family means spouse, parent (s), child (ren), brother (s), sister(s), grandparent(s), mother-in-law, father-in-law, foster parent (s), or blood relative(s) who serve as foster parent(s).
41. **Incident Commander:** The member who is in charge and has the responsibilities of an emergency incident that the fire department is involved in.
42. **Incident Command System:** The Incident Command System (ICS) has been developed and approved by the Horn Lake Fire Department. ICS is a standardized organization and management system utilized in the handling of emergency incidents.
43. **Interdepartmental Memorandum:** A notice issued by the Chief or other authoritative source.
44. **Leave Of Absence:** A granted leave from the Fire Department (with or without pay) within the guidelines of the department, City and State.
45. **Lieutenant:** Classification of rank. May serve as Officer-In-Charge, Shift Training Officer, and/or Company Officer.
46. **Member:** Any employee regularly or temporarily appointed to the Fire Department to perform the duties of a regular Fire Fighter, under whatever designation they may describe in any salary or departmental ordinance providing compensation for the Fire Department. The term “member” includes officers.
47. **Objective:** A specific statement of desired achievement and/or performance, which is directly measurable in scope and time factor.
48. **Officer-In-Charge:** An individual in charge of the personnel assigned to a specific fire station.
49. **Officer:** Officers of the Fire Department. Order of rank: Chief, Deputy Chief, Fire Marshal, Battalion Chief, and Lieutenant.
50. **On-Duty:** A condition of employment wherein a member is actively engaged in the function of the department.
51. **Operations Manual:** An administrative directive by the Chief establishing the practices and procedures of the department.
52. **Oral Reprimand:** An official oral notification by the direct supervisor or higher ranking officer to the employee that there is cause for dissatisfaction

with their performance, and further disciplinary measures may be taken, if not corrected.

53. **Paramedic:** Classification of rank. A Fire Department member holding current National Registered certification. Is responsible for emergency medical care within current City Guidelines.
54. **Platoon:** The shift designators represent the platoon. Platoons are as follows (A shift), (B shift), (C shift).

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Manual of Operations
Subject: Preparation of Policies
Code: 5
Adopted: 2025

5.01 Purpose

- A. To establish a systematic procedure for the preparation or change and distribution of Fire Department policies.
- B. To ensure the proper and regular systematic review of the Operational Manual.
- C. To ensure the proper, timely, systematic and controlled revision and update of the Operations Manual.

5.02 Policy

- A. A “policy” shall be defined as: a declared intent or objective that shall be used as a basis for decision and action.
- B. A “procedure” shall be defined as: a prescribed or acceptable routine or method of performing or implementing a desired course of action.
- C. The establishment of policies shall be a management prerogative, except that participation may be sought from employees in the development of those policies concerning conditions of employment and/or procedures and methods of an operational nature.
- D. It shall be the policy of this department, insofar as possible, to establish, in writing, the guiding principles and acceptable methods of action to be used by our personnel.
- E. These policies are intended to provide internal consistency.

5.03 Responsibility

- A. It is the responsibility of the Chief, or his/her designee to review and edit new and proposed policies.
- B. It is the responsibility of the member(s) who are assigned to review or revise policies to follow the prescribed review process and to ensure continuity with existing policies.
- C. The Chief shall be responsible for the distribution of all policies and procedures and shall maintain the master copy of the Operations Manual.
- D. The Fire Department Officers shall be responsible for communicating established policy to all employees in their command. Lieutenants shall be responsible for the maintenance and updating of the copy or copies of the Operations Manual, which are assigned to their stations.

5.04 Form

- A. The appropriate standard format and letterhead shall be used when composing the final draft of any given policy or procedure. All numbering and coding shall be consistent with existing policies.
- B. The standard typing format will be utilized when typing the final draft of any policy or procedure.
- C. Although not at all inclusive, the break down of a policy may include:
 - 1. Purpose: The general goal of the policy stated in such a manner so as to indicate why the policy is necessary.
 - 2. Policy: Statement as to what the policy shall be.
 - 3. Scope: The parameters of the subject
 - 4. Organization and Staffing: The policies may either change existing or create new organizational structure to accomplish its purpose. This may include the formation of a special committee to carry out some function. Staffing may be treated separately, with a delineation of the number of classifications required, and a description of duties and responsibilities.
 - 5. Authority and Responsibility: For purposes of implementing the policy and ensuring its effective operation, authority and responsibility must be clearly defined. Authority may be treated separately from responsibility if the nature of the policy requires it.
 - 6. Procedure: Generally, the procedure shall be stated at the end of the policy.
 - 7. Other Headings: Other functional sub-headings that are appropriate to the subject matter may be used as necessary.

5.05 Distribution

The Chief shall coordinate the distribution of policies and memorandums within the parameters of the following process:

- A. After approval by the Chief, the final copy of the policy will be printed and placed in the appropriate Operations Manual.
- B. The Chief shall update the policy Review and revisions schedule accordingly.
- C. Operational changes of the policy shall be sent with its attached memorandum to the appropriate members having charge of the various operations.
- D. Personnel receiving the copy of the new policy with its attached memorandum will follow any instructions pertaining to pen and ink corrections of the appropriate Table of Contents and/or Index, which may be on that memorandum. They will ensure that the copy of the Manual in their charge is promptly updated and that the cover memorandum is placed in file. They will also inform all personnel in their command of the new policy. The copies of the old policies, which are being replaced, shall be removed and discarded.

5.06 Preparation Procedure

In order to ensure uniformity and continuity of departmental policy, those members involved in the preparation or change of policy must correctly follow the prescribed standard procedure listed in this text. The following procedure shall be followed when developing a new policy or when processing an unscheduled change in policy.

- A. When a need for change is realized or a new policy is desired, the proposed policy should be formulated into a rough draft.
- B. Additional staff input should be incorporated into the formulation process through staff meetings and/or other means.
- C. The refined proposal should be drafted and sent through proper channels to the Chief for review and approval.
- D. The Chief will review the proposal and decide whether the new policy is necessary or not and may approve the policy as is or re-contact the originating member(s) for discussion, but the final decision remains with the Chief.
- E. If revision is necessary prior to approval, the Chief will contact the originating member(s) and coordinate the revision process.
- F. After approval of a policy, The Chief will prepare the policy for distribution and initiate the distribution process.
- G. The Chief is the final review level in the policy preparation process. As such, it is the Chief's prerogative to establish policy directly or seek staff input as seen fit.

5.07 Review and Revisions

A regular periodic review has been built into the system in order to review and revise the existing policies. Policy reviews are scheduled on an annual basis. The different books of the Manual are reviewed each year. The process begins with Book 1 being reviewed at the beginning of the fourth quarter of the year. A zero based approach will be utilized as the basis for this review process. This approach involves asking basic questions in order to determine the validity of an existing policy. The idea is to decide whether or not a given policy is still necessary, needs revision, or can remain in effect as it is. The following procedure shall be the process for review and revision of existing policy.

- A. The Chief will initiate the review process by checking the review schedule each month and sending out review notice to those member(s) charged with review of the given policies on the schedule for that month.
- B. When the involved member(s) receives the above-mentioned notice for a given policy, the zero based approach will be utilized during the review process.
- C. If the policy being review is considered invalid, then this should be noted on the review notice and a recommendation for approval of removal from the system should be forwarded to the Chief.
- D. The Chief will review the recommendations and either approve the removal or re-contact the reviewing member(s) for questions and discussion.
- E. If removal is not approved, the Chief may re-contact the reviewing member(s) for discussion, after said discussion, the Chief may maintain the original decision or may reconsider. If the decision is to reconsider, the Chief may decide to remove the policy from the system or to have it revised.
- F. If, at the beginning of the review process the member(s) charged with that review decides that the policy in question is still valid, then the next step is to determine whether or not a revision of the policy is in order.
- G. If no revision is needed, then this would be indicated on the review notice and the notice would be returned to the Chief. The Chief would then simply reschedule the policy for the next review period.
- H. If revision was in order, then a proposed revision would be formulated and sent to the Chief for review and approval.
- I. The Chief would review the proposed revision and either approve it or re-contact the member(s) for discussion and possible further revision. The Chief would coordinate the revision process.
- J. Any approved revisions will be sent to the Chief for preparation and distribution.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Fire Department Organization

Subject: Organizational Structure/ Chain of Command

Code: 6

Adopted: 2025

6.01 Purpose

- A. To provide members with a description and understanding of the Horn Lake Fire Department's formal organizational structure.
- B. To provide members with an understanding of the various relationships and functions of the Fire Department's sub-divisions.

6.02 Policy

- A. The operations Manual shall contain a description of the formal organization of the Fire Department.
- B. Fire Department members shall be aware of the department's formal organizational structure and chain of command.
- C. Any member contacted by a public official regarding any subject of this department will immediately contact their ranking officer and brief them on the contents of the conversation to ensure factual information can flow to the administrators of the City.
- D. All members of the department will follow the chain of command to ensure departmental management is possible. Any breach of this order will result in but not limited to termination.

6.03 Fire Department

- A. The administrative head of the Fire Department is the Chief.
- B. The Fire Department is responsible for the protection of life and property from fire, explosion, panic, building code compliance, existing building code compliance, and other related incidents.
- C. The Fire Department provides a full range of services to the citizens of the community including:
 - 1. Fire suppression and rescue
 - 2. Fire prevention
 - 3. Fire protection planning
 - 4. Pre-fire planning
 - 5. Public fire safety education
 - 6. Civil preparedness planning
 - 7. Miscellaneous public service
 - 8. Building code enforcement
 - 9. Building maintenance code enforcement
- D. The Fire Department participates with neighboring jurisdictions in mutual aid.
- E. The Fire Department is divided into four (4) divisions:
Administration, Fire Fighting, EMS, Building and life safety.

6.04 Administrative Division

- A. The Administrative Division shall consist of the Fire Chief and such personnel as may be authorized.
- B. The Chief is responsible to the Mayor for the proper administration, expenditures of funds, efficient functioning in the prevention and control of fires, and all functions of the overall operation of the Fire Department.
- C. The Deputy Chief is responsible to the Chief and acts as the administrator in day to day operations, and commands four divisions of the fire service. Fire Fighting, EMS Division, inspections / prevention, and Investigations.
- D. The Fire Fighting and EMS Divisions are commanded by the Battalion Chief and consist of stations, EMS units, engines, and truck companies and the personnel assigned to them. The Battalion Chiefs are responsible to the Deputy Chief.

6.05 Fire Fighting and EMS Division

- A. Three (3) Battalion Chiefs command the fire and EMS functions. Each Battalion Chief is in charge of one (1) of three (3) shifts. The Battalion Chiefs answer directly to the Deputy Chief.
- B. The Fire Fighters and EMS crews are responsible to the Lieutenant who is in charge of his/her station and equipment assigned to that station.
- C. The fire and EMS shifts carry out numerous activities and functions, fire suppression, rescue, medical calls, public assistance, Fire Company training, pre-fire planning, fire prevention, public education, fire hydrant testing, and maintenance of fire department apparatus, equipment, and facilities.

6.06 Building and Life Safety

- A. The area of Fire Prevention shall be directly managed by the Fire Inspector and will consist of such personnel as may be authorized.
- B. The Fire Inspector is the Chief code official assistant to the Deputy Chief, Chief and responsible for the enforcement of laws and regulations pertaining to the protection of lives and property.
- C. The activities of this area include: Code development and enforcement as developed and adopted as City ordinance.

6.07 Policy

- A. It is imperative that all members follow their chain of command. This is to keep information in a constant and even flow through out the department.
- B. No member of the department will speak on behalf of the administration or the department unless duly directed by the administration to do so. Any ideas or statements shall move up or down the chain of command as intended. The chain of command is represented in SOG 6.08.
- C. Disciplinary actions will follow if any member of the department does not follow the above policy.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Fire Department Organization

Subject: Position Description

Code: 7

Adopted: 2025

7.01 Purpose

- A. To list and define the duties and responsibilities of the various functional positions within the Horn Lake Fire Department.
- B. To provide a description of the relationship each position has to the chain of command.

7.02 Policy

- Ability to effectively give and receive verbal and written instructions.
- Ability to establish and maintain effective working relationships with other employees, supervisors and the public.
- Knowledge of all aspects of emergency management and hazard mitigation methods.
- Ability to handle high levels of personal stress and to maintain composure under a variety of adverse conditions, including verbal and physical, witnessing death and critical injuries
- Operate equipment properly and safely
- Make decisions within specified time restraints
- Deal with others in a professional manner
- Ability to establish and maintain effective working relationship with public and other employees
- Follow departmental and city procedures

Job Context

The Fire Chief position is a full-time, permanent position in the Fire Department. The immediate supervisor for this position is the Mayor and works under the general guidance and direction of the Board of Alderman. The person in this position directly supervises all fire department personnel with assistance from Battalion Chiefs. The Fire Chief works regularly scheduled hours year round, with occasional overtime or night/shift work when the work load demands it in emergency situations. Work is performed primarily in office, vehicles and outdoor settings in all weather conditions. This position works 75% indoors with 25% outdoors. The position has accountability for safety and legal issues related to the work for which this position is responsible.

The person in this position must be a graduate of college or university in fire science, public administration or a closely related field and/or ten (10) years of experience in fire or emergency medical service work, four (4) years of which must have been equivalent to Deputy Chief, Fire Battalion Chief and/or Captain. Physical work involved

with this position includes but is not limited to some of the same activities performed by fire division personnel.

The job description does not constitute an employment agreement between the employer and employee and is subject to change by the employer as the needs of the employer and requirements of the job change. Characteristics described in this job description are representative of those an employee encounters while performing this job. Reasonable accommodations may be made to enable individuals with disabilities to perform them.

City of Horn Lake

Job Description – Paramedic – Fire Department

Purpose of Position

Provide paramedic level medical care to residents of the community. Under general supervision of the Fire Department Chain of Command including but not limited to the Fire Chief, Fire Battalion Chief and Fire Lieutenant. Provide direct services, individually and as a member of a team in response to fire, rescue, hazmat and other incidents.

Essential Duties and Responsibilities

The duties listed below are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to the class.

- Provides emergency medical services for the city
- Accurately completes written and verbal reports on patient care to hospital emergency departments
- Checks medications and equipment daily to ensure proper control and inventory
- Required to transfer, lift and move patients while employing appropriate safety and lifting techniques
- Utilize city computer system for patient care documentation, record keeping, pre-incident planning and other job related functions
- Ensure that equipment is fully prepared and functional at all times
- Acts as a first responder to all types of emergency situations within response area
- Performs and documents required equipment inspections as assigned
- Participates in preventative maintenance on medical apparatus, and station maintenance
- Prepares various reports and other documents
- Performs such other related duties as may be assigned

Knowledge, Skills and Abilities

- Knowledge of emergency medical care at the paramedic level; local codes related to EMS emergencies, state statutes, city ordinances, and standard office practices and procedures.
- Location and direction to all hospitals in DeSoto and Shelby Counties
- General map reading skills

- Familiarity with existing triage, treatment and patient transport protocols
- Proficiency in advanced life support procedures
- Knowledge of medical terminology
- Ability to follow both written and oral communication; ability to communicate in a written and verbal manner; ability to exercise appropriate safety tactics in medical emergencies
- In addition to BLS (basic life support) skills, must be proficient in advanced life support (ALS) skills including but not limited to IV therapy, cardiac monitoring, advanced airway control and a variety of medication therapies
- Ability to handle high levels of personal stress and to maintain composure under a variety of adverse conditions, including verbal and physical, witnessing death and critical injuries
- Operate equipment properly and safely
- Work as a team member with other employees
- Make decisions within specified time restraints
- Work autonomously when necessary
- Deal with others in a professional manner
- Maintain professional composure in heated situations
- Ability to establish and maintain effective working relationship with public and other employees
- Follow departmental and city procedures

Job Context

The Paramedic position is a full-time, permanent position in the Fire Department. The immediate supervisor for this position is the Lieutenant/Battalion Chief. The person in this position is supervised on a daily basis and may oversee one full-time employee. The Paramedic works regularly scheduled hours year round, with occasional overtime or night/shift work when the work load demands it in emergency situations. This position works 30% indoors with 70% outdoors and requires work to be done in all types of weather conditions. The position has accountability for safety and legal issues related to the work for which this position is responsible.

There is exposure to chemicals and/or hazardous materials only in emergency situations, which patients have been in contact with. This exposure includes but is not limited to the products of combustion such as plastics, rubber, gasoline, and other petroleum products and various types of chemicals. The person in this position must be nationally registered as a Paramedic, hold an MS State Certification as a Paramedic along with a EMS drivers license and a state valid driver's license and keep up with all certifications and CEU's. The stress level associated with this position is higher during emergency situations. Physical work involved with this position includes but is not limited to some of the same activities done by fire division personnel.

The job description does not constitute an employment agreement between the employer and employee and is subject to change by the employer as the needs of the employer and requirements of the job change. Characteristics described in this job description are representative of those an employee encounters while performing this job. Reasonable accommodations may be made to enable individuals with disabilities to perform them.

Job Context

The Firefighter Level III position is a full-time, permanent position in the Fire Department. The immediate supervisor for this position is the Lieutenant/Driver. The person in this position is supervised on a daily basis and does not supervise. The Firefighter works regularly scheduled hours year round, with overtime when the workload demands it. Night work is required as this is a 24 hours shift position. The person in this position is always on call for emergencies. This position works 50% indoors with 50% outdoors and requires work to be done in all types of weather conditions. The position has accountability for safety and legal issues related to the work for which this position is responsible.

There is exposure to chemicals and/or hazardous materials only in emergency situations, which patients have been in contact with. This exposure includes but is not limited to the products of combustion such as plastics, rubber, gasoline, and other petroleum products and various types of chemicals. The person in this position must become a Certified firefighter, have training in CPR and EMR status, and maintain a valid driver's license. The firefighter must also have a high school diploma or equivalent education. The stress level associated with this position is moderately high during emergency situations. Physical work involved with this position includes but is not limited to the CPAT ability test for entrance into the Fire Academy. Physical work involved with this position includes but is not limited to some of the same activities done by fire division personnel.

The job description does not constitute an employment agreement between the employer and employee and is subject to change by the employer as the needs of the employer and requirements of the job change. Characteristics described in this job description are representative of those an employee encounters while performing this job. Reasonable accommodations may be made to enable individuals with disabilities to perform them.

Provide continuing education for employees

- Continually evaluate city's preparedness and make recommendations accordingly
- Coordinate and conduct continuous reviews and training of personnel as related to emergency situations

Perform other duties as directed

Job Context

The position of Emergency Management Services Director is a full-time position in the Fire Department. The immediate supervisor for this position is the Fire Chief, and/or Deputy Chief. This position works regular hours most of the time, with some flexibility when required. However, the person in this position is sometimes on call. This position is 80% indoor work and 20% outdoor work. The position has accountability for fiscal and safety issues.

This position is exposed to chemicals and/or hazardous materials such as gasoline and other automotive products only in emergencies. The person in this position must maintain a valid state driver's license and any other valid State of Mississippi Certifications and Licenses related to the field of Emergency Management. Other Certifications required include Cardio Pulmonary Resuscitation and Advanced Cardiac Life Support. This position requires a high school diploma or GED. A minimum of five years experience is required. The stress level associated with this position can be very high. Physical work involved within this position includes lifting of equipment and supplies.

Knowledge, Skills and Abilities

Knowledge

- Proper grammar and use of English in speaking and writing
- OSHA standards and regulations concerning employee safety
- Federal and state statutes concerning the work of the department
- Mathematical skills, including addition, subtraction, division and multiplication
- General functions and operations of municipal government

Skills and Abilities

- Use of personal computer skills including email, internet accessibility, Excel, and Word
- Cardio Pulmonary Resuscitation
- Advanced Cardiac Life Support
- Prioritize daily workflow
- Work as a team member with other employees
- Meet specified or required deadlines
- Make decisions within specified time restraints
- Communicate effectively with residents, elected officials, other employees, etc., both written and oral
- Maintain confidentiality
- Work autonomously as needed
- Handle multiple tasks simultaneously with frequent interruptions
- Deal with others in professional manner
- Maintain professional composure in difficult or stressful situations
- Develop, implement and follow departmental and city policies and procedures

The job description does not constitute an employment agreement between the employer and employee and is subject to change by the employer as the needs of the employer and requirements of the job change. Characteristics described in this job description are

representative of those an employee encounters while performing this job. Reasonable accommodations may be made to enable individuals with disabilities to perform them.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: General Administration

Subject: Time System

Code: 8

Adopted: 2025

8.01 Purpose

To establish the time system utilized by the Horn Lake Fire Department thus providing continuity of time notation within the Fire Department.

8.02 Policy

- A. The time system utilized by the Horn Lake Fire Department shall be twenty-four (24) hour military time.
- B. Any required notation of time on Fire Department record reports or communications shall be written in military time.
- C. The atomic clock in the Dispatch office will be used as the official time recording device for all entries that are to be recorded for alarms.

8.03 Procedures

- A. Midnight shall be written as 2400.
- B. One minute after midnight shall be written as 0001.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: General Administration

Subject: Social Media Policy

Code: 9

Adopted: 2025

9.01 Purpose

The purpose of this policy is to provide guidance to Fire Department members to clarify the boundaries between appropriate and inappropriate use of all social media platforms, sites, and apps by fire department personnel and provide guidelines on management, administration, and oversight of the use of social media that impacts the professionalism, safety, morale, and efficiency of the fire department.

This policy addresses social media in general terms as technology will outpace our ability to describe emerging technology and create policies governing its use. The inappropriate use of social media may lead to actual harm and disruption to the department in terms of the public's perception of the organization as willing to render services to them. It is important to protect member's careers while preserving the public's confidence in the fire department.

Nothing in this policy is intended to unlawfully restrict a member's right to discuss as a private citizen matters of public concern to the extent protected by the First Amendment. The First Amendment provides a guarantee that a person can say what they want, but it does not make a person immune from the consequences.

9.02 Scope

This policy applies to all full-time employees of the Fire Department without regard to whether their social networking activity is conducted in or outside the workplace, while on or off-duty, anonymously, or through the use of pseudonyms.

9.03 Policy

Department personnel shall adhere to the following while engaged in personal social networking activities:

1. No member shall post, disseminate, or in any other way broadcast as a private citizen on a matter of public concern in such a way as to cause actual harm or disruption to the mission and functions of the department. Examples of conduct that courts have concluded may cause actual harm or disruption to the mission and functions of the department include posts that:
 - a) Impair harmony among co-workers, neighboring departments, and operational partners
 - b) Has a detrimental impact on close working relationships among coworkers
 - c) Has a detrimental impact on the relations between the department and the community we protect, including speech that threatens violence or harm directed toward any person or group; encourages others to commit violence or harm directed toward any person or group; or threatens to or encourages others to withhold public safety services from any person or group, or
 - d) Are contrary to the department's regulations and harmful to the proper functioning of the department.
2. Members may post, disseminate, or broadcast on a matter of public concern as a spokesperson for the department only with permission through chain of command. Members shall always exercise diligence to avoid holding themselves out as spokespersons for the department except when duly authorized. The use of departmental titles, fire department logos, and fire department owned images, or identification as a member of the department in such a way as to create the impression that the member is acting as a spokesperson for the department, or that the posting is attributable to the department, is prohibited unless duly authorized.
3. Members may not divulge information gained by reason of their position or authority; make any statements, speeches, appearances, and endorsements; or publish materials that could reasonably be considered to represent the views or positions of the fire department without express written authorization from the fire chief.

4. Members are cautioned against the use of screen names or email addresses that may reasonably cause a person to believe that the member is acting as a spokesperson for the fire department. Examples include AFD_Lieutenant_Engine1, Anytown_FF_Jones, and similar forms. Members should avoid using signature lines in personal emails that include rank, title, and affiliation with the department, as this may give the impression that the member is speaking for the fire department.
5. The fire department acknowledges that members take pride in their role with the fire department, but members should use care when including the fire department's name, logo, patch, photos of apparatus, and/or information about the department on personal social media outlets in such a manner that creates the impression that the site may be an official fire department site.
6. Members are prohibited from posting, disseminating, or broadcasting fire department matters that are not of a public concern, unless doing so is for the purpose of engaging in concerted activities relative to workplace issues. Specifically, this provision does not prohibit members from discussing terms and conditions of employment among themselves or with non-members for the purpose of engaging in concerted activities. However, members must ensure that while engaging in concerted activities they are not perceived as being a spokesperson for the department nor that the posting could be attributable to the department.
7. Members shall not post, disseminate or broadcast information that is known to be false, deceptive, libelous, slanderous, misleading or causes harm to others, including speech that constitutes hate speech or harassment; nor shall members discuss protected or confidential matters of the department, including:
 - a) Matters that are under investigation
 - b) Patient and employee information protected by HIPAA and/or medical confidentiality laws; or
 - c) Personnel matters that are protected from disclosure by law.

This provision does not prohibit members from discussing terms and conditions of employment among themselves or with non-members for the purpose of engaging in concerted activities.

8. Members shall not post, disseminate, or broadcast department owned images or audio recordings unless authorized to do so, and unless such images or audio are available to the public pursuant to the public records law. If such images or audio have been released by the department as public records, members shall ensure that their subsequent use of such information is done in their capacity as private citizens, and not as spokespersons for the department unless authorized to do so.
9. Members shall maintain an appropriate level of professionalism and conduct so as not to post, disseminate, or broadcast in a manner that causes actual harm or disruption to the mission and functions of this department. This provision is not intended to restrict the content of a posting that is protected by the First Amendment, but rather is intended to apply to the use of vulgar, obscene, or indecent terms; the posting of materials of a pornographic nature; the use of threatening, harassing, or intimidating language; the use of speech that threatens or incites attacks on the basis of age, race, religion, sex, sexual orientation, gender identity or expressions, genetic information, disability, national origin, ethnicity, citizenship, marital status, military service, or any other legally recognized protected basis under federal, state or local laws, regulations or ordinances; or engaging in illegal activities.
10. Members are prohibited from using social media to harass, bully, discriminate, threaten violence or harm, or retaliate against a co-worker.

Harassment, bullying, discrimination, making threats of violence or harm, or retaliation against a co-worker that would not be permissible in the workplace is not permissible between co-workers through social media, even if it is done off-duty, from home, or using personal computers or devices.

11. Members should be aware that they may be subject to civil litigation for publishing or posting false information that harms the reputation of another person, group, or organization, otherwise known as defamation, to include:
 - a) Publishing or posting private facts and personal information about someone without their permission that has not been revealed previously to the public, is not of legitimate public concern, and would be offensive to a reasonable person;
 - b) Using someone else's name, likeness, or other personal attributes without that person's permission for an exploitative purpose; or

- c) c. Publishing the creative work of another, trademarks, or certain confidential business information without the permission of the owner.
- 12. Members are prohibited from using department computers for unauthorized purposes including surfing the internet or participating in social networking.
- 13. Members are prohibited from engaging in social networking activities while on duty except as outlined in this section.
 - a) Because social media is an emerging form of communication, the department permits members to engage in limited social media activity in the workplace and/or while on duty, such as receiving a personal text message or a telephone call of limited duration. Members choosing to do so, however, are expected and required to use proper judgment and discretion, recognizing that even very brief periods of social media activity can collectively amount to significant periods of time. Supervisors are authorized to restrict or prohibit workplace/ on-duty social media activity, as appropriate.
 - b) Members are prohibited from engaging in personal social networking activities that involves the recording or transmission of work-related imagery or audio while on duty; while on fire department property; while in fire department facilities; while on or in fire department apparatus or vehicles; or while in uniform or while wearing such portion of the uniform so as to make the member identifiable as a member of this department. This provision does not apply to department approved recording or transmissions. As pertains to this provision, the term imagery includes still photos or video taken and posted, disseminated, or broadcasted via the internet immediately or thereafter, as well as live streaming imagery.
 - c) Members are further advised that social media activities that involve the posting or discussion of incidents or work-related matters online may make the communications subject to Mississippi's Open Records Act creating legal obligations for them and the department. To the extent such postings and discussions trigger the public records laws members are required to comply with the department's record retention policy.
 - d) This provision shall not prohibit personal communications between a member and members of his/her immediate family that involve Face time, Skype, Zoom, Google Meets, or similar platforms.
- 14. Department personnel shall understand that privacy settings and social media sites are constantly changing and shall never assume that personal information posted on such sites is protected.

15. Department personnel shall expect that any information created, transmitted, downloaded, exchanged, or discussed in a public online forum may be accessed by the department at any time without prior notice.

VIOLATIONS:

1. Reporting violations.
 - a. Any employee becoming aware of or having knowledge of a post or of any website or webpage in violation of the provision of this policy shall notify his or her supervisor immediately for follow-up action.
2. Violation of this social media policy may result in disciplinary action up to, and including, termination in accordance with the fire department's disciplinary action policy.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: General Administration

Subject: Public Information Releases

Code: 10

Adopted: 2025

10.01 Purpose

To establish Fire Department policy concerning the release of information to the Public.

10.02 Policy

- A. All members shall exhibit an attitude of helpfulness and concern toward interested persons making inquiries into Fire Department or City activities.
- B. All members who receive inquiries as to the activities of the Fire Department or City shall field the inquiries and put the individual in contact with a Battalion Chief or higher and/or the city administrator if it pertains to City activities.
- C. During emergency operations, the Incident Commander (IC) or (if the position has been activated) the Public Information Officer (PIO) will answer questions and issue statements concerning the incident to the news media. Other members at the scene who receive questions and inquiries concerning the incident shall direct those interested persons to either the IC or if activated the PIO.
- D. The Incident Commander or Public Information Officer will set up a time and place to brief the media within increments of their choosing.
- E. Officers and members who have had questions directed to them shall direct said media to the (IC) of that operation or his designee (PIO).
- F. All requests for information concerning the county of DeSoto shall be referred to the DeSoto County Fire Coordinator or the proper volunteer fire department.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: General Administration

Subject: Communications and Notifications

Code: 11

Adopted: 2025

11.01 Purpose

To establish guidelines for the smooth flow of notifications and communications.

11.02 Policy

Proper day-to-day notification of key personnel shall be made in accordance with the guidelines established within this policy.

11.03 Scope

- A. Transitory day-to-day communications and notifications are the main focus of this policy.
- B. Communications or notifications, which establish departmental policy, shall be handled according to those procedures listed in this manual.

11.04 Sprinkler System Notification

- A. When the dispatch office is notified of a sprinkler system which is out of service for any reason, will log said information and notify the Battalion Chief on duty.
- B. If the call of a sprinkler system, which is out of service, comes to one of the Fire Stations the Officer-In-Charge is to notify the Battalion Chief on duty as well as the Dispatch office.
- C. Once the system is back in service, if the dispatch office is notified they will notify the Battalion Chief on duty, or if it come in to the fire station the Officer-In-Charge will notify the Battalion Chief and dispatch of same.
- D. All out of service and in-service information will be logged in the station journal of every station at the time they were notified.

11.05 Fire Investigation

The department's assigned Fire Investigator will be notified by the Battalion Chief on duty. The assigned Investigator will determine if any other investigators are needed.

11.06 Notification of Fires to the Chief

The Fire Chief and Deputy Chief will be notified immediately in the following situations.

- a. Any working residential, or commercial structure fire. Notification can be requested through dispatch or directly from the Incident Commander.
- b. Any residential structure fire involving death of occupants or serious injury of fire & EMS personnel. Notification will come directly from Incident Commander.
- c. Any working structure fire or large-scale incident outside the city limits where mutual aid has been requested from other municipalities or by county agencies. Notification can be requested through dispatch or directly from our highest-ranking officer on the scene.
- d. Any incident where media has made scene.
- e. Any active shooter situation.

11.07 Encoder Failure

In the event of a failure of the Encoder Alerting System, the department telephone system will be used to notify Fire Stations of alarms.

11.08 Equipment

- A. When Fire Department equipment and/or apparatus are out of service, the Officer at the station will be notified of said problem; thus notifying the Battalion Chief. When Fire or EMS apparatus leave the stations for any reason other than a call, then they are to notify the Battalion Chief prior to leaving the station.

11.09 Dispatch Problems

- A. If any problems arise concerning dispatch procedures, Fire Department members shall write a complaint letter and submit it to the Battalion Chief who will then pass it up the chain to the Deputy Chief.
- B. If problems arise and the Battalion Chief is unavailable, Fire Department members shall notify the Deputy Chief with the letter of complaint.
- C. The Battalion Chief shall assess the severity of any communications problem that is brought to their attention, and if the Battalion Chief feels it is justified, shall notify the Deputy Chief.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Personnel Policies and Procedures
Subject: Complaints against FD Personnel
Code: 12
Adopted: 2025

12.01 Purpose

To provide policy, guidelines, and procedures relative to investigation and Management of complaints against Fire Department personnel.

12.02 Policy

- A. All complaints lodged against Fire Department personnel shall be received promptly and courteously.
- B. Non-supervisory members receiving complaints against Fire Department members shall refer the complaint to the on-duty Battalion Chief.
- C. Complaints of a serious nature shall be referred to the Deputy Chief or Chief.
- D. Information concerning all aspects of an investigation of a complaint against a Fire Department member shall be considered confidential and due respect for the rights and dignity of all parties concerned shall be afforded by those involved in the investigation process.
- E. Any member who may be assigned by the Deputy Chief or Chief to investigate allegations against another member of the Fire Department shall endeavor to investigate said allegations fairly and impartially in an effort to determine the truth of the matter and arrive at a just disposition of the case.

12.03 Authority

- A. The Chief or Deputy Chief shall have the authority to conduct an internal investigation relative to complaints, which may have been filed against any member of the Fire Department.
- B. The Chief or Deputy Chief shall have the authority to designate an investigator, who will be selected from among the membership of the department, to conduct an internal investigation relating to complaints against Fire Department members.

12.04 Responsibility

- A. The Chief or Deputy Chief is responsible for investigating complaints against Fire Department personnel.
- B. Battalion Chiefs are responsible for receiving complaints against Fire Department members and initiating the investigation process.
- C. All Fire Department members are responsible for receiving complaints promptly and courteously and ensuring that all complaints are forwarded (through channels) expeditiously to the on-duty Battalion Chief.
- D. Any member who has been designated as an investigator for the purpose of conducting an internal investigation shall endeavor to conduct said investigation in a professional manner, seeking to fairly and impartially determine the facts involved.

12.05 Complaint Status

- A. Whenever a formal internal investigation is conducted, an investigative report (containing the particulars of the case) shall be prepared and forwarded directly to the Chief or Deputy Chief.
- B. One or more of the following findings shall be included in each completed investigative report.
 - 1. Unfounded. The investigation indicates that the act or acts complained of did not occur or failed to involve Fire Department personnel.
 - 2. Exonerated. Acts reported did occur but were justified, lawful, and proper.
 - 3. Not Sustained. Investigation fails to discover sufficient evidence to clearly prove or disprove the allegations made in the complaint.
 - 4. Sustained. The investigation disclosed sufficient evidence to clearly prove the allegation(s) made in the complaint.
 - 5. Not Involved. Investigation establishes that the individual named in the complaint was not involved in the alleged incident.

12.06 Arrested Employee

- A. Whenever it becomes known that a member of the Fire Department has been arrested by a law enforcement agency, the Chief and Deputy Chief shall be notified immediately.
- B. The Chief or Deputy Chief shall contact the law enforcement agency involved and shall attempt to obtain as much information as possible concerning the case.
- C. Whenever a member of the Fire Department is arrested in connection with alleged on-duty criminal activities, the Chief and Deputy Chief shall be immediately notified, and a formal investigation may be initiated.
- D. Whenever a member of the Fire and EMS division has been arrested on or off duty they may be placed on administrative leave with or without pay until a ruling from the courts of guilty or not guilty can be reached.

12.07 Criminal Allegations

- A. Whenever a police report has been filed against a Fire Department member, the Chief and Deputy Chief shall be notified immediately and a formal investigation may be initiated.
- B. Whenever a complaint against a Fire Department member indicates a criminal act and there is sufficient evidence to the extent that an arrest of said individual seems likely, the Chief and Deputy Chief will be notified immediately.

12.08 Procedure

Fortunately, complaints against Fire Department personnel are not very frequent. However, complaints against Fire Department members do occur and may originate from a variety of sources, including local citizens, members of the general public who are not local residents, personnel from other City departments, the Police Department, etc. These complaints may be received by any of the various components of the Fire Department but should be expeditiously routed to the on-duty Battalion Chief who will ensure prompt and efficient handling of the same. The following illustrates the system used for handling complaints against Fire Department personnel.

- A. Non-supervisory members of the Department receiving complaints against Fire Department personnel shall refer the complainant to the on-duty Battalion Chief.
- B. The Battalion Chief shall determine as much information as possible and shall notify the Chief and Deputy Chief as soon as possible.
- C. Battalion Chiefs receiving complaints against Fire Department personnel, either directly or via another source within the Fire Department, shall initiate an informal investigation.
- D. The Chief or Deputy Chief may initiate a formal investigation if they deem it necessary.

- E. When the Chief becomes involved, he may decide (based on facts) to handle the investigation or to delegate the investigation to another member.
- F. The investigator (either the Chief or his designee) shall conduct the investigation and shall contact the involved member(s) and question it to the facts involved.
- G. At the conclusion of the investigation, the investigator will prepare a report and submit it directly to the Chief. Said report will indicate the appropriate standard finding based on the conclusions drawn by the investigator.

City of Horn Lake, MS Fire Department

Standard Operating Guide

*Chapter: **Personnel Policies and Procedures***
*Subject: **Off Duty Employment***
*Code: **13***
*Adopted: **2025***

13.01 Purpose

To establish Fire Department policy relative to off-duty employment.

13.02 Policy

- A. Fire Department members who participate in outside off-duty employment are subject to the policies contained herein.
- B. Members shall not conduct any outside business, employment or transactions during inappropriate times while on duty.
- C. Fire Department equipment and facilities shall not be used to conduct or support any outside business or employment engaged in by any member.
- D. Members shall not be involved or engaged in any outside business or employment which may:
 - 1. Obstruct, impede, distract or hinder Fire Department operations in any way or form.
 - 2. Bring discredit or criticism upon the Fire Department.
 - 3. Cause conflict of interest relating to their position within the Fire Department.
- E. Members shall not utilize the Fire Department name or their position within the department to further their outside business or employment.
- F. Until such time as the Chief rules otherwise, and as long as the efficiency of the employee is not lessened in carrying out his/her duties with the Fire Department, off-duty employment will be permitted. This privilege may be revoked at any time signs of abuse or reduction in efficiency are noted.

13.03 Scope

Off-duty or outside employment shall be considered to be any gainful occupation (other than the Fire Department) requiring time and energy, whether working for others or self-employed.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: General Administration

Subject: Training Policy

Code: 14

Adopted: 2025

14.01 Purpose

- A. To provide a continuous and progressive Training program which will enable Fire Department personnel to provide the highest possible level of service to the community.
- B. To facilitate the acquisition and development of knowledge and skills necessary for Fire Department personnel to professionally fulfill their duty to the public.
- C. To provide continuous reinforcement and monitoring of the necessary skills and knowledge levels of Fire Department personnel.

14.02 Policy

- A. The Fire Department shall to the best of its ability provide a regular and continuous standardized training program to its members.
- B. The Fire Department shall provide standardized training reference and materials made available for the use of its members in conjunction with the Fire Department training program
- C. All Fire Department members shall participate in the Fire Department training program relative to their position and classification within the Department.
- D. All Fire Department members shall wear Class B uniforms during training classes either on campus or off campus that the department is paying you for. The only exception will be the MS State Fire Academy courses in which the student will follow their dress code.

14.03 Objective

- A. To provide policy relative to the Fire Department training program.
- B. To list the responsibilities of the various levels of the Fire Department relative to training.
- C. To list the minimum training program requirements in term of required training hours per month.

14.04 Authority and Responsibility

- A. The authority and responsibility for the adoption and approval of various training requirements shall be vested in the Chief.
- B. The designee Training Officer, in collaboration with the Battalion Chiefs shall be responsible for:
 - 1. Evaluation of training program content.
 - 2. Evaluate continuity of training between shifts.
 - 3. Development of yearly training schedule.
 - 4. Continuity of training between City of Horn Lake Fire Department and other agencies.
 - 5. Work in close conjunction with the shift Lieutenants in matters relating to training.
 - 6. Provide all necessary support and assistance to the shift Lieutenants relative to training matters.
 - 7. Arranging for and scheduling special training sessions.
- C. Battalion Chiefs are responsible for the following:
 - 1. Evaluate the training needs of their respective personnel.
 - 2. Coordinate with the respective Company Officers under their supervision relative to training needs and requirements.
 - 3. Coordinate with the Training Officer in matters related to training.
 - 4. Provide overall management and guidance to their respective platoons in matters relating to training.
- D. Company Officers are responsible for the following:
 - 1. Monitoring training needs of their respective personnel and other personnel who may be assigned to their company.
 - 2. Coordinate with their respective Battalion Chiefs in matters relating to training.
 - 3. Scheduling routine monthly training sessions and drills for their respective company.
 - 4. Conducting and/or assigning routine training sessions and drills for their respective company.
- E. All Fire Department members are responsible for participating in Fire Department training activities and for maintaining personal and professional competence relative to the skill and knowledge levels required of their respective classification and position within the department.

14.05 Training Records

- A. Training records shall be processed and maintained in accordance with the policies stated in this manual.
- B. Lieutenants are responsible for entering all training records into the HLFD software, including all members who attended training at their respective stations.

14.06 Areas of Training and Requirements

The following section identifies the minimum required amounts of training time for the various general training program areas:

- A. A minimum of one (1) hour of training is required per shift each shift day and entered into the available software for HLFD.
- B. The training program consists of the following areas:
 - 1. NFPA Standard 1001 I II. If this certification has already been attained, then you still need to refresh to keep the knowledge you have already gained.
 - 2. In-Service training.
 - a. In-service classes
 - b. Streets, addresses (the way the numbers run).
 - c. Hydrants.
 - 3. Company Training
 - a. Company training classes.
 - b. Evolution drills
 - c. Drivers training.
 - 4. Outside Training
 - a. Inclement weather training.
- C. Horn Lake Fire Department Drivers Divisions of Fire and EMS shall be familiar with the streets, hydrants and businesses in the city.
 - 1. Your first responsibility is for your 1st in district
 - 2. Your second responsibility is for your 2nd in district
 - 3. Your last and final responsibility is for your 3rd in district

14.07 Training policy for Fire Division attending the Fire Academy

- A. Lieutenants will be required to take the following classes: Fire Instructor I, Fire Officer I & II. Each employee will receive meal reimbursement, training pay for days you are scheduled to work while attending each class, and a City vehicle will be provided. Once Lieutenants have completed all required training, they will be able to submit a training request for one Fire Academy class a year. These requests will be looked at by the Chief and/or Deputy Chief and then will be decided if the Department will be able to pay for the class requested. This will be looked at on a case-by-case basis.
- B. Drivers will be required to take the following class: Driver Operator. Each employee will receive meal reimbursement for this class, training pay for days you are scheduled to work while attending each class, and a City vehicle will be provided.
- C. Firefighters will be required to take the following classes: Haz Mat Tech I, Rope Rescue Awareness and Operation, and Confined Space. No meal reimbursement will be given for these classes, training pay for days you are scheduled to work while attending each class will be provided, and a City vehicle will be provided.
- D. Smoke Diver: If you take this class, you will not receive meal reimbursement, you will not receive pay for being in class during your regular scheduled shift day,

and you will not be provided with a City vehicle. If you do pass this class, the City reimburse the class fee. Payment for the course must be prepaid before the City will sponsor you.

- E. Any classes that you would like to attend that are not listed as a requirement for your position you can take annual leave, use your own vehicle, and the department will sponsor you.

14.08 Training policy for Field Programs

- A. For Monday to Friday programs, you will be paid like you are on shift for the week.
- B. If you are scheduled to work on Sunday or the following Saturday, you will work your shift.
- C. No meal reimbursement.
- D. No departmental vehicle.
- E. If class is cancelled for any reason, you will report to work as scheduled.
- F. If your class is a two week class, then you will be off the weekend between weeks.

14.09 Stipend Pay

- A. Departmental Stipend Pay Annually for the following classes and certifications:

EMS Driver: \$200.00

EMT Basic: \$500.00

EMT Paramedic (permanently assigned to an EMS unit): \$6,000.00

Firefighter Paramedic: If you are detailed to an EMS unit you will receive your rate of pay plus \$1.55 per hour for every hour you are assigned to the EMS unit. For any reason you are detailed over to ride to the hospital on the unit, this will not be counted as the out of rank time and will not receive the \$1.55 an hour pay. This rate of pay is separately listed on your timesheet and does not reflect any overtime pay.

Haz Mat Tech I: \$200.00

Rope Rescue Awareness and Operations: \$200.00

Confined Space: \$200.00

Out of Rank: \$500.00

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Personnel Policies and Procedures

Subject: Injury/Illness-Industrial

Code: 15

Adopted: 2025

15.01 Purpose

- A. To establish uniform guidelines regarding the reporting of injuries and/or illness, which are suffered by Fire Department members in the course of or as a result of their official duties.
- B. To establish Fire Department policy in relation to on-duty injury and/or illness.

15.02 Policy

- A. All injuries and/or illnesses occurring to Fire Department members, arising from the performance of their official duties, shall be reported on workman's Compensation Forms and signed by the Battalion Chief on duty within twenty-four (24) hours of the injury or illness. Additional forms that may be required are the Supervisor's investigation report, Authorization for medical treatment, and verification of duty status.
- B. The on-duty Battalion Chief shall be notified immediately of on-duty injuries and/or illness occurring to personnel.
- C. The Deputy Chief shall be notified as soon as possible if any member of the Department suffers an on-duty injury and/or illness that require the member to be relieved from duty.
- D. The member must have the treating physician fill out a duty verification slip to be returned to the Battalion Chief or higher-ranking officer.

15.03 Scope

To cover those policies and procedures concerning work related injuries and/or illnesses.

15.04 Responsibility

- A. All members are responsible to operate in a safe manner, following all safety guidelines and procedures as well as using safety equipment provided by the Department.
- B. All members are to report any on-duty injury and/or illness to their direct supervisor as soon as possible.
- C. All supervisors are responsible to make sure that those members who are injured and/or ill and who are in need of medical attention receive medical attention promptly.
- D. All supervisors are responsible to ensure that the required forms, reports and log entries are made concerning injured and/or ill members.

15.05 Procedure

- A. When a Fire Department member incurs an injury and/or illness in the line of duty, said member shall report the incident as soon as possible to his/her supervisor.
- B. The member must complete and submit a Workmen's Compensation Form to the Battalion Chief within twenty-four (24) hours of the injury and/or illness. Forms are available in the HLFDD software.
- C. The Supervisor and/or Battalion Chief will investigate the incident immediately and will write a supervisors investigation report and submit it to the Chief and Deputy Chief.
- D. The supervisor will make note of the injury and/or illness in the Journal relating to the member's name, a brief description of the injury and the current disposition of the case.
- E. If the injury and/or illness occur while operating on an alarm, this shall be noted in the Incident Report as well as regularly required forms.
- F. The on-duty Battalion Chief will be notified as soon as possible whenever a member is injured and/or ill.
- G. Members shall identify themselves as a City of Horn Lake employee at the medical facility.
- H. Members receiving medical treatment at a medical facility must have the attending physician complete a duty verification form to be turned in to the Battalion Chief.
- I. After receiving initial medical care following an injury and/or illness, the member shall bring back to the supervisor a completed duty verification form, which shall state the ability or inability to work. Should the member be absent after the doctor indicates ability to do regular work, he/she will be referred back to the treating physician for another examination and another determination of ability to work. If both documents indicate ability to work, the member will not be paid for the period of absence.
- J. If members are unable (due to their injuries and/or illness) to fill out the Workmen's Compensation form, their immediate supervisor shall complete this form and make note of this action next to the supervisor's signature.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Personnel Policies and Procedures

Subject: Vehicle Accident Policy

Code: 16

Adopted: 2025

16.01 Purpose

To establish the procedure to follow concerning the review of motor vehicle accidents in Fire Department vehicles.

16.02 Policy

All accidents involving Fire Department vehicles will be investigated. The Deputy Chief, or Chief may designate a Battalion Chief to review any accidents. Motor vehicle accidents will be reviewed to determine whether the accident was avoidable or non-avoidable.

1. Avoidable accidents- the driver failed to do everything reasonably possible to avoid the accident.
2. Non-avoidable accidents- the driver did everything reasonably possible to avoid the accident.
3. The investigation will consider all circumstances surrounding the accident. The investigating police agency report will be included in reviewing the accident.
4. The department reserves the right to request a drug screen to be performed. Failure to comply may result in immediate suspension until the investigation of the incident can be brought to a close.

16.03 Procedure

- A. Fire Department accidents will be investigated by the on duty Battalion Chief. The proper police agency for the jurisdiction where the accident occurred will also be notified.
- B. The Battalion Chief may recommend changes in procedure, policy, equipment, alterations and remedial training for the operator to the Deputy Chief within five (5) working days of the incident. The Battalion Chief will consult with the Deputy Chief if disciplinary actions are required.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Apparatus Operations

Subject: Driving Emergency Vehicles

Code: 17

Adopted: 2025

17.01 Purpose

To establish Fire Department policy relative to driving fire apparatus and other vehicles.

17.02 Policy

- A. All members shall follow departmental guidelines for safe driving.
- B. The chock blocks provided with various pieces of fire apparatus shall be utilized at all times.
- C. Members driving Fire Department vehicles shall observe the basic speed rule (never exceed a speed which is safe, reasonable and proper for existing conditions).
- D. When backing Fire or EMS apparatus, a member shall serve as a guide to assist the driver and ensure a safe backing operation.
- E. Members driving Fire Department vehicles shall utilize defensive driving techniques.
- F. Fire Department members driving emergency vehicles shall use extreme caution on approaching and traversing street intersections.
- G. Fire Department members driving emergency vehicles shall use extreme caution as they approach the emergency scene.
- H. Fire Department members driving emergency vehicles shall utilize warning devices in accordance with those guidelines found in the Operations Manual.

17.03 Responsibility

- A. All Fire Department members are responsible for operating all fire apparatus and other vehicles in accordance with the Mississippi Vehicle Code and the guidelines contained within the Operations Manual.
- B. All Fire Department members are responsible for driving in a defensive and safe manner.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Apparatus Operations

Subject: Warning Devices

Code: 18

Adopted: 2025

18.01 Purpose

To establish the procedures and criteria for use of warning devices on Fire Department vehicles.

18.02 Policy

The Fire Department shall utilize warning devices on emergency vehicles in accordance with those criteria established under the Mississippi Vehicle code.

18.03 Authority

Mississippi Vehicle Code authorizes the use of warning lights and sirens on Fire Department vehicles during response to emergency situations. Emergency situations are defined as those situations where life and/or property are directly endangered.

18.04 Emergency Operations

- A. Emergency Vehicles: Shall be operated on an emergency basis only when all warning devices are in continuous operation.
- B. Warning Lights: Warning lights on Fire Department Vehicles shall be kept in operation while responding to alarms or when necessary while working at emergencies.
- C. Siren: The siren shall be operated through its full range of sounds (both high and low) during emergency responses. Discretion may be used while responding on streets void of traffic, late at night, or while on final approach to an emergency scene where other emergency vehicles are converging.
- D. Headlights: Apparatus headlights shall be kept in operation during all emergency responses day or night and when necessary, while working at emergencies.
- E. Air Horn: May be used in connection with the siren being sure that siren is operated from the high to low pitch sound. (The air horn is not to be used in a manner which will exclude the siren.)

18.05 Non-Emergency Operation

- A. Vehicles responding to non-emergency type incidents, such as public assists, shall not use warning lights and sirens.
- B. Warning lights should be used when in front of the station while backing onto the pad and shut off as soon as the vehicle is clear of the roadway.
- C. During station tours, pumper demonstrations, etc., warning lights and sirens can be used as part of the demonstrations as long as it is determined to be safe and not confusing to adjacent motorists and citizens.
- D. Members should use discretion (in order to avoid public confusion) when discounting the use of warning devices after being canceled from an emergency response.
- E. When the apparatus is parked on a public street, the four-way amber flashers may be utilized to warn passing motorists of its presence.
- F. When responding through residential areas during the nighttime or early morning hours, care must be taken to avoid excessive use of apparatus sirens.
- G. Warning lights and/or sirens will not be used when returning to the station from emergency incidents.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: General Administration
Subject: Accidents Resulting in Property Damage
Code: 19
Adopted: 2025

19.01 Purpose

- A. To provide policy and guidelines for the proper management of accidents involving City owned vehicles where either a vehicle or property has suffered damage.
- B. To provide policy and guidelines when damage is sustained to property by negligence of any City employee.

19.02 Policy

- A. Whenever Fire Department members are involved in an accident while operating City owned vehicles or damage is sustained to property by the negligence of any City employee.
- B. All accidents involving City owned vehicles driven by Fire Department members shall be reported to their immediate supervisor and through channels to the Chief.
- C. A City of Horn Lake Vehicle Accident report shall also be completed.

19.03 Scope

- A. The scope of this policy includes all vehicle accidents involving City owned vehicles.
- B. The term "City Owned Vehicle", as used in this policy, means any City Vehicle including: Fire Apparatus, staff vehicles, utility vehicles, or any other vehicle owned and operated by the City.
- C. The scope of this policy includes negligent action(s) by any City employee
- D. All Fire Department personnel are responsible to follow Department guidelines and behave in a responsible, professional manner when involved in traffic accidents while operating City owned vehicles.

19.04 Procedure

- A. Emergency Operating Conditions: If a City owned vehicle is responding to an alarm when the accident occurs:
1. The Fire Department member (s) involved shall notify the Dispatcher of the accident. The dispatcher shall dispatch another company or vehicle to answer the alarm. The Battalion Chief is to be notified immediately, the Battalion Chief will notify the Deputy Chief.
 2. The dispatcher shall notify the proper law enforcement agency upon receiving said notification.
 3. In the event of an injury, the dispatcher will be notified and dispatch an EMS unit, and the Fire Department members shall provide all assistance possible.
 4. The vehicle involved in the accident shall not be moved until a law enforcement officer arrives or until ordered so by a Chief Officer of the Fire Department.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: General Administration

Subject: Citizen Accidents –City Property

Code: 20

Adopted: 2025

20.01 Purpose

To provide Fire Department members with guidelines concerning citizen accidents and injuries which occur on City property.

20.02 Policy

- A. Private citizens who are injured in accidents which occur on City property, shall receive immediate medical attention.
- B. The Battalion Chief shall be notified of any accidents occurring on Fire Department Property.
- C. No Fire Department employee shall sign or make any statement admitting City liability.
- D. The incident shall be promptly referred to the Chief and Deputy Chief's Office.

20.03 Scope

Includes all citizen injuries occurring on City property or involved in accidents with City employees or on property under the control of City employees.

20.04 Responsibility

- A. All Fire Department members who observe or are involved with citizen injuries falling within the scope of this policy shall take initial action (s) and act within the guidelines of this policy.
- B. The Chief shall contact the Mayor's Office.

20.05 Procedure

- A. Notify Battalion Chief
- B. Administer emergency medical care as is necessary and available.
- C. Call for medical assistance as needed.
- D. Make proper notifications in accordance with this policy.
- E. Do Not sign or make any statement that will admit City Liability.
- F. Cooperate with Horn Lake City investigators.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: General Administration
Subject: Lost or Damaged Equipment
Code: 21
Adopted: 2025

21.01 Purpose

To establish Fire Department policy and procedures for the proper management of matters concerning lost or damaged equipment and/or apparatus.

21.02 Policy

Members who may become aware of lost or damaged Fire Department equipment and/or apparatus shall promptly report such conditions in accordance with the procedures contained within this policy.

21.03 Procedures

- A. Any member who becomes aware of lost or damaged Fire Department equipment and/or apparatus shall notify his/her supervisor immediately, and initiate the proper paper work (HLFD Damage Form).
- B. The Battalion Chief shall make an assessment as to whether or not theft or vandalism has occurred and, if so notify the Police Department. An incident report must be filled out for any theft of City Property.
- C. The member finding lost or damaged equipment and/or apparatus must complete the HLFD Damage Form and turn it in to their immediate supervisor who shall complete their portion of said form.
- D. The HLFD Damage Form must be completed for all lost or damaged property and must be submitted to the Battalion Chief on that shift day.
- E. If needed the Battalion Chief will notify the Deputy Chief of the situation and what actions have or are being taken to fix the problem.
- F. The HLFD Damage Form will be filled out in the following manner.
 - 1. The date of filing
 - 2. The property or equipment assigned to
 - 3. Serial #, (either the serial # or Fire Department # if it does not have a serial #)
 - 4. Name and description of property or equipment.
 - 5. Item was lost, damaged, destroyed, unaccountable for, or inoperable (circle the appropriate one).

6. Location of loss or damage.
 7. Date and time of loss or damage if known (if not known don't fill out and make reference in your narrative that its unknown when it was lost or damaged)
 8. If Firefighter's, Drivers and EMS personnel fill out the form they should sign their name at the end of their statement.
 9. When the Lieutenant gets the form he should include their statement and sign their name at the end.
 10. The Battalion Chief will investigate said loss or damage and put his statement in the appropriate space.
 11. The Deputy Chief will research the information within the report and write their statement.
 12. The person correcting the loss or damage will fill out the final Disposition. i.e. the Battalion Chief.
 13. The member ordering the item or parts will fill in cost of repair or replacement.
- G. The Battalion Chief's will coordinate with the Chief, and Deputy Chief to get the item replaced or repaired.

21.04 Responsibility

- A. All personnel shall be responsible for completing HLFDF Form when applicable.
- B. The Battalion Chiefs shall be responsible for maintaining the suspense file and shall notify the Deputy Chief of any problem still on the file ten (10) days after submission (holidays and weekend excluded).
- C. The Fire Department administration shall be responsible for correcting problems and completing forms.

21.05 Miscellaneous

- A. All forms on items that cannot be corrected within ten (10) days shall automatically move up ten (10) days each time they appear.
- B. This automatic move up every ten (10) days shall be done in order to ensure follow-up and make sure there is not a repetition of filing.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Personnel Policies and Procedures

Subject: Tobacco Use

Code: 22

Adopted: 2025

22.01 Purpose

To establish the procedure to follow concerning the use of tobacco products in the Fire Department facilities, and grounds.

22.02 Policy

- A. All tobacco users will be held accountable for this policy. Tobacco use will be permitted in accordance with this policy.

22.03 Procedure

- A. All smoking/ vape will be conducted in the areas assigned by the Chief.
- B. All smoking products will be disposed of in the proper place provided.
- C. If the company officer (s) find cigarette butts in the yard they will assign the smokers in the station the duty of policing them up and placing them in the trash.
- D. Chewing tobacco is also permitted provided the user (s) have a SPILL proof container to place their juice in.
- E. Chewing tobacco user (s) will not be permitted to spit into the trashcans throughout the station.
- F. The chewing tobacco user (s) will be required to police up their own spit containers.
- G. There will be no spitting on the bay floor pad or parking areas

If at any time a tobacco user is in violation of this policy, the privilege can be suspended for said individual for a period determined by the administration.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Personnel Policies and Procedures

Subject: Cell Phone Use

Code: 23

Adopted: 2025

23.01 Purpose

To establish the procedure to follow concerning the use cell phones in the Fire Department facilities, grounds, and on calls.

23.02 Policy

It shall be the policy of the department to allow cell phone use by all persons.

23.03 Procedure

There shall be no cell phone used while on or returning from any call, this includes texting. They will be allowed at the station at the company officers' discretion and shall not be abused in the manner that it keeps any person (s) from completing their duties in a timely manner. If this occurs it shall be the company officer's duty to put said individual (s) on notice. If it continues to interfere then the company officer shall use the disciplinary guidelines to correct the actions.

The Fire Department member who has been assigned to enter the report into the software may attach pictures to the report such as License Plate, or VIN #. No member of the Fire & EMS will take pictures of scenes without permission from the immediate supervisor and no pictures should include any violation of HIPPA. No warnings will be given, and this will constitute an immediate dismissal from a scene and disciplinary actions will follow.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Station Operations

Subject: Station Maintenance

Code: 24

Adopted: 2025

24.01 Purpose

To establish procedures and guidelines for the cleaning of fire stations.

24.02 Policy

- A. Fire Stations shall be maintained in such a manner as to ensure that they are safe, neat, and clean and present a desirable appearance at all times.
- B. All cleaning shall be performed in accordance with this policy.
- C. Members shall help in unfinished areas once they have finished their own assigned area (s) of cleaning.
- D. Nothing in this policy shall preclude any Chief Officer or Officer-In-Charge from requiring additional cleaning or maintenance or making work schedule adjustments as the need arises.
- E. Personnel from the entire shift will handle all fire station repairs and maintenance work, which is of a minor or routine nature.
- F. When the need for repairs or anything other than routine maintenance arises, the on-duty Battalion Chief or Officer-In-Charge shall notify the Deputy Chief or Chief who will, in turn, make the necessary arrangements for the repair work.
- G. Whenever possible Fire Department personnel will perform maintenance as to keep the cost down, for budgetary reasons.

24.03 Scope

- A. The focus of this policy concerns fire station structures including living quarters, apparatus bays, and any other rooms and/or structures that may be on fire station property.
- B. This policy covers routine maintenance, which encompasses routine cleaning and repairs of a minor nature.

24.04 Responsibilities

- A. Each Officer-In-Charge will be responsible for inspecting areas upon completion of cleaning.
- B. Each Officer-In-Charge is responsible for supervising the overall cleaning and maintenance of the fire station in their charge.
- C. All personnel shall carry out all cleaning and maintenance assignments, which have been assigned to them.

24.05 Daily, Quarterly, and Semi-annual cleaning schedule

- A. Daily cleaning, all floors are to be swept and mopped, all bathrooms are to be cleaned, and areas with carpet shall be vacuumed.
 - 1. Monday station one and station three trash to the curb for pick-up.
 - 2. Tuesday all windows in stations and apparatus cleaned, all air filters Checked and replaced as needed. All light screens cleaned, and all furniture dusted.
 - 3. Wednesday Grass gets cut at all stations. Trash removal from yards, weed eating around buildings, and all other things in the yard (i.e. trees, maze, fences, etc.). Any large clumps of grass should be raked and picked up to ensure a positive image. You should edge the curbs and blow all areas when finished. Wash the mowers down when finished.
 - 4. Thursday clean bay floors, pads, and parking lots.
When needed use degreaser to remove grease and/or oil spots from the Floor, squeegee if needed when finished. Trash at station two needs to be out to the curb by 0705 for pick-up.
 - 5. Friday all storage areas shall be cleaned and straightened.
 - 6. Station three trash will go to the curb on Sundays.
 - 7. Refrigerators will be cleaned out on each shift's first day of the set.
- B. Quarterly cleaning, all walls should be wiped down, areas around air vents, behind stoves, refrigerator microwaves, ice machines, nightstands in bed halls and mattresses should be aired out when needed.
- C. Semi-annually all gutters and down spouts will be cleaned.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Station Operations

Subject: Station Operations-General

Code: 25

Adopted: 2025

25.01 Purpose

To provide policy and guidelines for safe, efficient and effective operations of Fire Stations.

25.02 Policy

- A. The on duty Lieutenants at all stations shall be in charge of their respective station and be designated as the Officer-In-Charge (OIC). The Lieutenants are ultimately responsible for all equipment, and personnel assigned to that station.
- B. In the absence of an on-duty Battalion Chief the off going Battalion Chief or a Lieutenant on the Battalion Chiefs promotion list shall assume all of the duties of that officer until one can be called in. The off going Battalion Chief will make the decision regarding turning command over to a Lieutenant or keeping it until a replacement can be found.
- C. The on-duty Battalion Chief shall be overall in command of the three (3) stations and their respective crews.
- D. Each Fire Station shall be maintained and operated in a manner, which promotes efficiency, good appearance, and safety to the personnel assigned there and to the public.
- E. All personnel shall abide by those guidelines contained within this policy, and any set forth by their respective Lieutenants.

25.03 Security

- A. The Officer-In-Charge shall be responsible for overall Fire Station security.
- B. All personnel shall be mindful of Station security and abide by all those policies, which concern the same.
- C. During normal business hours (0700 to 1700) and when occupied, the stations shall be opened to the public.
- D. When not occupied, Fire Stations shall be secured with doors and windows locked.
- E. All Fire Stations shall be secured at 2100 hours.
- F. The Officer-In-Charge shall provide (after 2100) personnel to secure the station when a company responds to and returns from a call.
- G. Business hours may be altered for specific functions as may be necessary to better serve the public.
- H. If it is discovered that any part of the Fire Station, its contents or grounds have been damaged, stolen, or vandalized, the Battalion Chief shall be notified immediately.
- I. The Officer-In-Charge shall notify the on-duty Battalion Chief who will assess the situation and contact the Police Department to file an incident report. The Battalion Chief shall also notify the Chief or Deputy Chief as to the circumstances involved.
- J. Any theft, damage, or vandalism of personally owned vehicles shall also be reported to the Battalion Chief on-duty.
- K. Any time the Police Department is needed at any Fire Station the Battalion Chief is to be notified prior to the P.D. being notified.
- L. No personal equipment, trucks, cars, etc. will be worked on at the station without the Battalion Chiefs permission.
- M. No personnel will post any items on the stations board without a direct order from the Chief, Deputy Chief or Battalion Chief.

25.04 Safety

- A. The Officer-In-Charge shall be responsible for overall safe operation of the Fire Station under his/her charge.
- B. All personnel shall be mindful of Station safety and shall correct and/or report such safety problems as they may observe in the Fire Station.
- C. Personnel shall use care and all available safeguards when utilizing power equipment, tools, and electrical equipment in the Fire Station.
- D. Personnel shall use care in the storage of tools, equipment, and supplies so as to not block any access or egress or to impede the response to alarms.

25.05 Economy

Personnel shall use discretion and good judgment in the use of expendable supplies and utilities.

25.06 Sleeping

- A. Personnel shall not be permitted to sleep in the lounge area of any Fire Station.
- B. At the discretion of the Officer-In-Charge, personnel may:
 - 1. Occupy beds after 1200 hours.
 - 2. In case of sickness or fatigue from duty, occupy beds at any time.
- C. In all cases the Officer-In-Charge shall consider the needs and duties of their shift before allowing personnel to occupy beds.
- D. There shall be no unnecessary disturbance of sleeping persons between the hours of 2200 and 0600 or during other permitted times.
- E. Personnel shall arise by 1700 hours, and remain up until at least 1900 hours
- F. Personnel shall arise by 0630 hours, to prepare for shift change.

25.07 Bedding

- A. All personnel are responsible for bringing their own bedding.
- B. All personnel are responsible for cleaning and maintenance of their personal bedding.
- C. All personnel shall remove their bedding at the end of their duty day and place it into their assigned locker.
- D. No articles are to be left out of assigned lockers.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Records and Reports
Subject: Station Journal
Code: 26
Adopted: 2025

26.01 Purpose

To provide a permanent, concise, and comprehensive daily history of pertinent information relative to the activities of fire stations that are not documented elsewhere.

26.02 Policy

- A. An ESO station journal shall be maintained at each fire station.
- B. The Lieutenant in charge at each station shall be responsible for maintaining the journal during his/her respective tour of duty.
- C. All entries in computer shall be clear, and made in such a manner that they may be understood.
- D. Only approved abbreviations may be used in the journal.
- E. All journals shall be started by 0800 hours unless you are on a detail.
- F. All incidents are to be entered into the station computer by the end of your shift.
- G. Lieutenants are responsible for entering information into the station computer regarding work being performed at their perspective station, out of service equipment, and etc.

26.03 Objective

- A. To provide policy and guidelines relative to maintaining the station journal.

26.04 Responsibility

- A. Battalion Chief's are responsible for insuring those in their respective commands who are charged with maintaining Station journals do so in accordance with departmental policy.
- B. Individuals who are charged with maintaining Station journals shall do so in accordance with the guidelines and procedures contained within this policy.

26.05 Scope

The term “STATION JOURNAL”, as used in this policy, refers to the information entered in the Fire House computer system kept by all Fire Stations and EMS crews.

26.06 Procedure

- A. All entries shall be made in chronological order.
- B. All entries from 2400 hours to 2400 hours of the following day shall be entered under the same date heading.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: General Administration

Subject: Security of Fire Stations

Code: 27

Adopted: 2025

27.01 Purpose

To establish guidelines relative to the general security of Fire Department property

27.02 Policy

- A. The general security of the Station shall be the responsibility of the on-duty Officer-In-Charge and shall be carried out by his/her designee.
- B. By 2100 hours all doors (front, back, and side) shall be locked.
- C. By 1800 hours the keys to all department vehicles parked outside shall be brought in and said vehicles shall be locked.
- D. After 2100 hours, Officers-In-Charge shall provide personnel to secure stations.
- E. When responding to a call, all doors are to be secured.
- F. When crews are going to a detail all doors are to be secured and all TV's, lights, and etc. are to be turned off. Exception (Computers).
- G. All stations are equipped with exterior security cameras.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Records and Reports
Subject: Apparatus Daily Checks
Code: 28
Adopted: 2025

28.01 Purpose

- A. To keep all apparatus and equipment ready for emergency response.
- B. To provide the department with a daily inventory on all apparatus and equipment.
- C. To provide the administration with a daily record of fluids being added, and inventory missing or added.

28.02 Policy

- A. The Apparatus Inspection shall be entered into the fire departmental computer system on all apparatus during morning apparatus checks by 1000 hrs. The only exception to this will be if you are on a call. Checks should be entered directly after apparatus is checked off.
- B. An inspection of inventory shall be performed after the apparatus returns from an incident no matter how small the incident was.
- C. The Company Officer on duty shall be responsible to ensure that the entries are put into the computer system when required.
- D. It shall be the responsibility of the apparatus operator to enter the inspection for his/her apparatus.
- E. Inspections of reserve apparatus and light vehicles shall be assigned at the discretion of the Company Officer.
- F. NO equipment shall be added to or removed from any apparatus without permission from the administration.

28.03 Procedure

- A. The Apparatus Inspection shall be entered at the beginning of each day.
- B. Compartments shall be inventoried.
- C. Any serious problems with apparatus or inventory shall be brought to the attention of the Company Officer immediately.
- D. There should not be any equipment added to any department vehicles unless approved by Administration.

City of Horn Lake, MS Fire Department

Standard Operating Guide

*Chapter: **Records and Reports***

*Subject: **Incident Reports***

*Code: **29***

*Adopted: **2025***

29.01 Purpose

To provide sufficient guidelines that will facilitate the proper completion of Horn Lake Fire Department Incident Reports in a manner that provides all necessary information and is consistent with reporting requirements.

29.02 Policy

- A. The first-in engine company officer and/or paramedic of the proper unit upon returning to the station will complete the Horn Lake Fire Department Incident Reports and EMS Reports. At the Lieutenants discretion exceptions are made due to call load (EMS).
- B. All Fire and EMS reports are to be completed by the end of every shift.
- C. Incident reports will be completed for every incident that the fire department responds to and according to EMS procedures.
- D. Each fire department report will be reviewed and approved by Administration to meet all ESO requirements. If after review, mistakes are found then you will receive a message VIA ESO and the corrections made immediately. The person designated by the Chief, or Deputy Chief to perform the Q and A's will review Fire and EMS reports.

29.03 Procedure

- A. The first-in engine company officer and/or paramedic, upon returning from the incident, shall enter the incident information into the department's current computerized reporting systems and complete all information required by ESO or MEMS.
- B. Each station Lieutenant is responsible for verifying the accuracy and completeness of his/her own shift's incident reports.
- C. All spelling must be correct. If in doubt, check maps, directories, or dictionaries. You should always have another person proofread your remarks for accuracy.
- D. A written description of the incident must be included in the narrative section of the report. It must be detailed and concise on all handwritten reports.
- E. Engine companies and EMS units must ensure that all runs get logged into the station journals (ESO).
- F. Battalion Chiefs are responsible for making sure their shift has all fire, and EMS reports completed by the end of the shift. All fire reports are to be (Q and A) by the Battalion Chief and locked by Sunday of each week.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Personnel Policies and Procedures

Subject: Visitation

Code: 30

Adopted: 2025

30.01 Purpose

To establish policy and guidelines relative to visitation at Fire Stations.

30.02 Policy

- A. Definition of Visitor: Any person who enters the premises of any Fire Station under the control of this Department, having the desire to view the station and apparatus, or wishing to see any of the members on business or otherwise. The only exception will be members of the department.
- B. Visitors will be greeted in a professional manner and if the visitor just wants a tour of the fire station or equipment will be assigned an escort. The visitor, if they're to see a member of the department, shall remain in the area assigned by the Company Officer. There are no exceptions to this rule.
- C. All visitors shall be gone from the property by 2100 hours or at the request of the Lieutenant on duty.
- D. Any visitor that shows up to the station believed to smell like alcohol shall promptly be asked to leave.
- E. Any visitor acting in an inappropriate manner will be asked to leave.
- F. Any in-service rides will report to the Battalion Chief on duty for their assignments. This includes but not limited to dispatchers, and/or students.
- G. At no time will a member of the department be allowed to occupy any vehicle in the parking lots with or without a visitor for any length of time.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Rules and Regulations

Subject: Code of Ethics

Code: 31

Adopted: 2025

31.01 Purpose

- A. To establish broad behavioral guidelines within which all employees are expected to conduct themselves while working for the City of Horn Lake.
- B. To declare and define the moral obligations of all members of the Horn Lake Fire and EMS Division.

31.02 Policy

- A. Employees will conduct themselves at all times in such a manner as to create respect for themselves, as public servants, and the jurisdiction they represent.
- B. Employees will place public interest above individual, group, or special interests and will consider their jobs as an opportunity to serve the citizens of Horn Lake.
- C. Employees will not discriminate because of race, color, religion, age, sex, handicap, political affiliation, or national ancestry. In his/her job capacity, each employee works to prevent and eliminate such discrimination in providing services, assigning work schedules, and in executing all personal actions.
- D. Employees will not have any material, financial interest in any private business or professional activity which would be in conflict with their job responsibilities or that would tend to impair independence of judgment or action in the performance of official duties.
- E. Employees will not accept any personal gift, favor, service, money, or anything of value from the public which might reasonably tend to influence or might reasonably be inferred too tend to influence the impartial discharge of duties.
- F. Employees will at all times, when in contact with the public, be fair, courteous, respectful, and impartial.
- G. Employees will refrain from using their position for personal gain and will keep confidential all information not available to all citizens that are required by virtue of their position in the organization.
- H. The same shall apply to interdepartmental information not available to all employees of the department.
- I. Use of department telephones will be allowed for local calls as long as employees are reasonable in their use. Use of department telephones for unofficial long distance calls will not be permitted without prior approval.

- J. Employees will observe all work schedules as established by the department and will not deviate from them.
- K. Employees will, when in public, clearly distinguish/identify between all statements and actions made as an individual and as a representative of the department.
- L. Employees will, when request are made upon the department by those not directly connected with the department (i.e. Board of Aldermen, Mayor, Media, etc.) handle these request as quickly as is practical and as accurately as possible. All request made shall be brought to the attention of the next higher official within the department. Members are expected to follow their chain of command.
- M. It is expected that all employees of the department will follow these policy statements as stated herein.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Rules and Regulations

Subject: General Conduct

Code: 32

Adopted: 2025

32.01 Purpose

To outline the basic standards of general conduct expected of Fire Department members.

32.02 Policy

- A. All Fire Department members are expected to operate in a highly self-disciplined manner.
- B. Members shall abide by the standards of personal conduct outlined in this policy as well as City policy.

32.03 Responsibility

Every member of the Horn Lake Fire Department is responsible to regulate his/her own conduct in a positive, productive, and mature way.

32.04 All Members Shall

- A. Follow operations manual and written directives of both the Horn Lake Fire Department and the City of Horn Lake.
- B. Work competently in their positions to cause all department programs to operate effectively.
- C. Always conduct them-selves to reflect credit on the department.
- D. Be managed in an effective, considerate manner and follow instructions in a positive, cooperative manner.
- E. Always conduct them-selves in a manner that relates good order inside the department.
- F. Keep them-selves informed; within their scope of practice, to do their jobs effectively.
- G. EMS personnel will take the basic equipment into every scene as prescribed by the Chief or dictated by the type of call you are responding to.
- H. Be concerned and protective of each member's welfare.
- I. Operate safely and use good judgment.
- J. Obey the law.
- K. Be careful of department equipment and property.
- L. Be civil and respectful to their officers and to each other and to the public.
- M. Report to their Battalion Chief any traffic, or illegal violation they have received on or off duty, no later than one working shift after they have received the violation.
- N. Follow the Chain of Command regarding any departmental or City business on or off duty.

32.05 Members Shall Not

- A. Engage in any activity that is detrimental to the department such as, attitude, behavior within or outside the department, non acceptable acts at any schools or academy's that the department enrolls you in or where you may be a representative of this department. Careless driving on the way or coming from any schools or academy's.
- B. Violation of any S.O.G rule, policy, regulation or lawful order of a superior officer.
- C. Engage in any conflict of interest to the department or use their position with the department for personal gain.
- D. Use alcoholic beverages, debilitating drugs, or any substance, which could impair their physical or mental capabilities before and while on duty.
- E. Use alcoholic beverages a minimum of 12 hours prior to duty.
- F. Fight on or off duty.
- G. Engage in any sexual activity while on duty.
- H. Abuse their sick leave, or absence without leave.
- I. Steal.
- J. Engage in horseplay.
- K. Use profanity, improper conduct, or indecent language while on duty.

- L. Be permitted to make derogatory remarks to anyone about any member or officer of the department or City, which might subject them or the department to ridicule. Any such matter should be reported through the chain of command.
- M. Make a false official report or make a false statement or gossip about a member of the Fire Department or the business of the Department to the discredit or the detriment of any such member of the department or the department as a whole. This rule also applies to the City and any of its elected officials, and employees.
- N. Post any comments or pictures on any website personal or public that implies your job with the City of Horn Lake without permission from the Battalion Chief, Deputy Chief or Chief.
- O. Arrive on or engage in any (working call) that he/she has not been requested to. The only members allowed on a scene that has not been requested is Chief, Deputy Chief, Battalion Chief's, and Captains. If you arrive on a scene off duty due to unforeseen circumstances, you are considered to be a spectator and shall conduct yourself accordingly. You will not enter that scene without direct permission from the incident commander.
- P. Inefficiency or incapacity in the performance of duty.
- Q. Neglect of duty, or refusal to obey orders.
- R. Abuse of sub time S.O.G 35.
- S. Inappropriate use of cell phones including texting while on duty.
- T. Inappropriate use of computers or technical equipment.
- U. Bad attitudes towards job duties, or orders given.
- V. Careless or reckless operations of a motor vehicle.
- W. Making a false report or statement verbally or in writing.
- X. Thievery- the taking of property belonging to the department or an individual.
- Y. Firearms, Bows, and Air Soft Guns are not permitted at any Fire Station.

32.06 Disciplinary Charges

- A. No Charges shall be brought unless it is believed they can be proven.
- B. Charges and complaints brought against a person of higher rank than the member bringing them shall be in writing to the next higher-ranking officer above the person that the charges are being brought. The individual bringing them shall sign such charges and complaints.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: Personnel Policies and Procedures
Subject: Disciplinary Guidelines
Code: 33
Adopted: 2025

33.01 Purpose

To provide disciplinary policies, guidelines and procedures for the Horn Lake Fire Department.

33.02 Policies

- A. The establishment and maintenance of discipline is the responsibility of all officers. Officer's treatment of their subordinates shall be impartial and without prejudice. Favoritism or unjust discrimination of duties or orders will not be tolerated.
- B. No unfair advantage shall be taken of a subordinate because of their obligation to obedience. Spite orders, petty persecutions or nagging will not be tolerated.
- C. Officers shall see that rules are enforced.
- D. Officers shall strive to adjust differences or disputes between their subordinates.
- E. Extenuating circumstances will be taken into account, but alleged ignorance or misunderstanding of the rules will not be accepted as an excuse. Previous conduct, good or bad, will be taken into account in determining the penalty. Penalties will be administered to the severity of the infraction.
- F. Whenever an employee's performance, attitude, work habits or personnel conduct on the job falls below a desirable level, supervisors shall inform employees promptly and specifically of such lapses and give counsel and assistance. In an appropriate, justified and reasonable period of time for improvement may be allowed before initiating disciplinary action.

33.03 Procedure

- A. All charges shall be made in writing and signed by the supervisor and the individual receiving the disciplinary action. Any refusal to sign the disciplinary action will automatically start the appeals process and the supervisor will forward the disciplinary action up the chain of command which may result in immediate suspension of the employee until an investigation can be concluded.

33.04 Disciplinary Action for run late policy

- A. Verbal – First offense – Shall consist of a run late for duty not more than 30 minutes and will be recorded in a written format. This will remain in your file for a minimum of 3 years.
- B. Written I Reprimand – Second offense – Shall consist of a run late for duty not more than 30 minutes and will be recorded in a written format. This will remain in your file for a minimum of 3 years.
- C. Written II Reprimand- Third offense - Shall consist of a run late for duty not more than 30 minutes and will be recorded in a written format. This will remain in your file for a minimum of 3 years.
- D. Suspension from duty- Shall consist of a run late for duty more than 30 minutes or your third run late offense. This will consist of a written notice and a minimum of 24 hours off without pay. This will remain in your file permanently. Any further violation of this policy may result in demotion in rank, or dismissal.

33.05 Disciplinary Action for violation of Standard Operating Guides excluding run late violations.

- A. Verbal – First offense – Shall consist of a violation of any Standard Operating Guide. This will remain in your file for a minimum of 5 years.
- B. Written I Reprimand – First offense – Shall consist of a violation of any Standard Operating Guide. This shall be recorded in written format and will remain in your file for a minimum of 5 years.
- C. Written II Reprimand- Second offense – Shall consist of a violation of any Standard Operating Guide. This shall be recorded in written format and will remain in your file for a minimum of 5 years.
- D. Suspension from duty – Third offense – shall consist of a violation of any Standard Operating Guide. This shall be recorded in written format and will remain in your file indefinitely. This reprimand will consist of a minimum of 24 hours off without pay.
- E. Dismissal – Will be recommended to the Mayor and Board of Aldermen for numerous violations of Standard Operating Guides.

33.06 Appeals

You have the right to appeal the result of this recommendation within five (5) days, including weekends, in writing to the City Clerk. Any decision of the Mayor and Board of Alderman is final. All appeals will follow the chain of command.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Organization

Chapter: Personnel Policies and Procedures
Subject: Reporting, Sick, Vac, and/or using stand-in.
Code: 34
Adopted: 2025

34.01 Purpose

To establish policy and guidelines relative to Fire Department member's Responsibility to report to work on time.

34.02 Policy

All Fire Department members of the Fire and EMS divisions shall report to work no later than 0700 hours in full uniform on the days the individual is scheduled to work. This policy is meant to reflect that the members have reported in for duty, and not in the parking lot unloading their gear for the day. If the members are reporting to work from other jobs, gym, etc. the member must be in uniform no later than 0645 if working a 24 hour shift or 1845 if working a twelve hour shift. All members of the administration shall report to work according to the guidelines established by the Chief.

Sick Leave

When calling in sick on the day you should report for duty, all members shall make the call between 0545 and 0615 each day you are going to miss. You will call Head Quarters station (3) and talk to the Lieutenant on duty or the Battalion Chief. You are subject to bring a doctor's excuse and a copy of your co-pay at any time the administration requests it. All sick leave hours are to be used for Funeral Leave, or the employee being sick. At any time, the employee is sick for three or more consecutive workdays a doctor's note is required and should be presented to your Battalion Chief on your first day back to work.

(New hire to 3 Years): You may use up to 48 hours of sick leave annually before a doctor's note will be required. All sick leave hours used after the 48 hours will automatically require a doctor's note up to December 31st of each year in which the process will start over the following January 1st. The only exception to this policy is using the sick leave hours for funeral leave.

(3 Years to 8 Years of employment): You may use up to 72 hours of sick leave annually before a doctor's note will be required. All sick leave hours used after the 72 hours will automatically require a doctor's note up to December 31st of

each year in which the process will start over the following January 1st. The only exception to this policy is using the sick leave hours for funeral leave.

(8 Years to 15 Years of employment): You may use up to 96 hours of sick leave annually before a doctor's note will be required. All sick leave hours used after the 96 hours will automatically require a doctor's note up to December 31st of each year in which the process will start over the following January 1st. The only exception to this policy is using the sick leave hours for funeral leave.

(15 Years and up): You may use up to 120 hours of sick leave annually before a doctor's note will be required. All sick leave hours used after the 120 hours will automatically require a doctor's note up to December 31st of each year in which the process will start over the following January 1st. The only exception to this policy is using the sick leave hours for funeral leave.

The above sick leave policy has been created by the administration to allow employees to use their earned sick leave and to stop any abuse of the benefits that the City provide. This policy will automatically apply when the employee has reached the above maximum hours used in the years of service bracket that they fall in.

If the employee fails to produce a doctors note once the above conditions have been met, then disciplinary actions will follow on each occurrence. It is not the administration responsibility to keep up with how many sick hours you have used during the calendar year, although it can be provided to you within a reasonable amount of time upon request.

You may use your sick leave time off no less than (1) one hour and no more than (4) hours. If you need to be off more than (4) hours then you will be required to take the entire twelve hour shift off (NO EXCEPTIONS). **A doctor's note is required upon returning to work.**

The administration reserves the right to visit you at your place of residence to confirm any and all claims. If you are not located at your place of residence or the claims are false, then disciplinary actions up to termination will follow.

It is the employee's responsibility to make sure the administration has their correct address and phone number on file and entered in the HLFD Software, and filed with the city's HR department. If this information has not been updated to reflect the correct information then disciplinary actions up to termination will follow.

Stand-In

Members of the department will be permitted three (3) stand-ins within a twenty-four (24) month period. The twenty-four (24) month tabulation period will begin with the first offense and run concurrently for twenty-four months. The employee must call for a (stand-in) no later than 0645 hrs so notifications can be made and the proper arrangements are maintained. A stand-in can only be used with an equal ranked employee at your assigned station. A stand-in cannot exceed one hour. If the employee calls after 0645 or is more than one hour late then this will result in following the run late policy.

Members who are late for duty will be charged with no pay for the time they are absent in 30 min. increments.

Personnel who exceeds three (stand-In) limit will be disciplined in accordance with the run late policy.

It is the employee's responsibility to make sure the Lieutenants and Battalion Chief are notified of this issue. It is the employee's direct supervisor who is responsibility to make sure all paper work has been filled out and filed. It is the employee's responsibility to ask for the (stand in), if you do not initiate the (stand in) it will not apply automatically.

Annual Leave

1. Annual Leave forms will be filled out in their entirety
2. Initialed and dated by your Lieutenant or acting Lieutenant
3. Turned into your Battalion Chief (2) two weeks in advance, but no more than 60 days in advance.
4. Your Battalion Chief will initial and date the form after checking to make sure it is filled out correctly. If your annual leave is denied your Battalion Chief will notify you as soon as possible.

Below is the minimum number of **qualified** personnel on each apparatus.

When filling a position the word “**Qualified**” means anyone who is equal rank or holds the out of rank qualification to fill a particular position.

Rescue 1 – 3

Unit 1 – 2

Engine 2 – 3

Unit 2 – 2

Engine 3 – 3

Unit 3- 2

Chief Officer - 1

Totaling 16

It is the department’s goal to provide and comply with the State, and NFPA rules and regulations regarding staffing apparatus; therefore minimums must be set in place to protect our staff members, our citizens and comply with the State and NFPA standards. The Battalion Chief can allow more than (2) personal off at a time if they can cover the position with qualified personnel. If the Battalion Chief can’t cover the position, then the Annual Leave Request will be denied. Above are the minimum staffing set by the administration that must be maintained at all times.

T-3 – when put into service the administration will make a decision for the minimum number of personnel allowable.

If the Battalion Chief receives more than two applications to be off on the same day and at the same time, the vacation approved will be seniority based.

Emergency Leave

This administration realizes that you may have an emergency, and you must take vacation to address the issue, therefore if an (**emergency**) arises and you need to take vacation and it is not two weeks in advance, you will contact your Lieutenant and your Battalion Chief as to such emergency. Your Lieutenant or Battalion Chief may deny this request for leave if it is decided that your request is not a true emergency and could have been handled on your day off. If possible and the schedule allows you to take off without causing the shift to be filled with overtime or puts a unit or company without the proper trained personnel on that equipment, then your Battalion Chief may grant you vacation time off no less than (1) one hour and no more than (4) hours. If you need to be off more than (4) hours, then you will be required to take the entire twelve hour shift off (NO EXCEPTIONS).

City of Horn Lake, MS Fire Department

Standard Operating Guide

Organization

Chapter: Personnel Policies and Procedures
Subject: Shift Sub
Code: 35
Adopted: 2025

35.01 Purpose

To provide a system for approval and control of shift sub requests thus allowing Fire Department members to take a normally assigned work shift off without having to use vacation time.

35.02 Policy

Sub Time

1. Whatever day you Sub you will get paid your scheduled work day. All parties will be paid their normal scheduled shift days (No changing in pay schedule). Each employee will be held accountable for your scheduled workday.
2. It has to be with equal rank. (Rank for Rank)
3. All Sub requests must be completed and approved by the Lieutenants, and both Battalion Chiefs. The Chief, Deputy Chief and Battalion Chiefs reserve all rights to deny any sub application.
4. All subs must be paid back within three months or by the end of the calendar year, whichever time period is shorter.

The employee that does not fulfill their obligation for the swap time will be disciplined with a minimum of progressive written disciplinary action and the loss of subs for one year on the first offense.

The second offense will result in a loss of Subs for 2 years. Exceptions will be made for death in the immediate family. If you call in sick you will be required to submit a doctor's note and submit a copy of your co-pay (No Exceptions). All Standard Operating Guides regarding sick leave will apply.

5. Lieutenants are responsible for all ESO entries regarding Subs.
6. No Sub can allow you to work more than 48 hours consecutively.
7. Battalion Chiefs are responsible for all the paperwork required for the Subs.

35.03 Scope

This policy is designed to provide a method whereby a member can take a normally assigned work shift, or part thereof, off, without having to use vacation time. It is not intended to be used by members as a means of continuous relief from their normally assigned shifts. If this policy is abused it can and will lead to the termination of this privilege for the abusing member (s).

35.04 Procedure

- A. The Sub request will be submitted at least twenty four (24) hours in advance of the day the duty change is to occur.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Organization

Chapter: Personnel Policies and Procedures
Subject: Emergency Relief
Code: 36
Adopted: 2025

36.01 Purpose

To provide Fire Department members with the policy and guidelines concerning emergency relief.

36.02 Policy

- A. In the event of an urgent emergency involving an on-duty member's family, said member may request, through the Battalion Chief, to be relieved from duty on an emergency basis.
- B. The Battalion Chief shall determine the urgency of the situation and may proceed as per one (1) of the following:
 - 1. If the situation warrants immediate relief of the member and current conditions will allow, said member might be released as soon as possible without waiting for the arrival of a qualified relief member.
 - 2. If the situation is one (1), which requires relief of the member, but is not urgent, said member may be released upon the arrival of a qualified relief member.
- C. Appropriate log entries and changes to payroll records shall be made by the Battalion Chief on duty at Headquarters station (station 3).
- D. The Battalion Chief shall ensure that proper coverage is provided whenever a member is relieved under emergency conditions.

36.03 Scope

- A. Emergency relief is designated to provide members with a means of being relieved from duty on a temporary basis due to a need arising from a family emergency.
- B. Members should request emergency relief only when a true emergency situation exists.

36.04 Procedure

- A. A member in need of emergency relief shall contact their immediate supervisor and request it.
- B. The Battalion Chief will be notified before such transaction takes place.
- C. The appropriate entries to the log and payroll shall be made.
- D. Proper coverage shall be provided.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Organization

Chapter: Rules and Regulations
Subject: Grooming Standards
Code: 37
Adopted: 2025

37.01 Purpose

To establish guidelines concerning personal appearance standards, which will enable Fire Department members to present a neat and professional appearance at all times.

37.02 Policy

- A. Fire Department members shall maintain a high standard of dress and personal appearance.
- B. Members (while on duty) shall abide by departmental grooming standards.

37.03 Responsibility

- A. Individual officers are responsible for the appearance of members under their direct command.
- B. All members are responsible to abide by departmental grooming standards and maintain a neat and professional appearance while on duty or in uniform.

37.04 Hair

- A. Hair: All male employees shall keep their hair neat, clean, and well groomed, and properly trimmed at all times. The hair shall be cut so that the earlobe will not be covered; the hair may cover the forehead to a line on the top of the eyebrows; the hair shall be styled in such a manner as not to cover more than one-half ½ of the uniform shirt collar in the back when standing. Objects such as combs, curlers, rollers, barrettes, etc. will not be permitted. The hair shall be worn in such a manner as not to obstruct the correct seal of the facemask and proper fit of the helmet.
- B. Hair: All female employees assigned to the Fire Division fall under the same standard as the males with the following exception; your hair will be allowed to be shoulder length.
- C. Sideburns shall be well groomed and neatly trimmed and shall not extend below a horizontal line with the bottom of the ear. Sideburns shall not be wider at the end of the sideburn than at the mid-ear. Any sideburns meeting these criteria will prevent a seal with breathing apparatus face-piece and shall be trimmed to provide such a seal.
- D. Facial Hair
 - 1. A neatly trimmed mustache of natural color may be worn above the lip line. Length is not to exceed the corner of the mouth. Full and partial beards, goatees, and other facial hair not falling within the above criteria for mustaches and sideburns shall not be permitted for fire or EMS.
 - 2. Hair length for female EMS division shall only be restricted if at anytime it appears to interfere with EMS functions.
 - 3. While on duty, hair must be neat at all times so as not to interfere with EMS functions or obstruct vision. Hair may be secured in a single ponytail or bun-type fashion with minimum use of securing devices.
 - 4. NO fad haircuts, unnatural colorings, or designs (either cut-in or dyed into hair) will be allowed.
 - 5. Any EMS division employee who is assigned to the Fire division apparatus must adhere to the grooming standards for the Fire division mentioned above.
- E. The wearing of jewelry
 - 1. Fire personnel will not be allowed to have any earring, nose, eye, tongue, or other body piercing in view.
 - 2. EMS personnel may wear earrings of the nature that will not hang down the ear. They will not be permitted to wear any nose, eye, tongue, or other body piercing in view.
 - 3. All members will be permitted to wear necklaces as long as they remain out of view.

37.05 Personal Hygiene

- A. Personal hygiene is essential, therefore; it is necessary that all employees maintain a clean, presentable appearance. Personal hygiene includes a regular bath/shower, use of deodorant, and appropriate oral hygiene.
- B. Strong odors caused by perfumes, scented hair sprays, and aftershave lotions can be offensive and are to be used in moderation out of concern for the comfort of others.

37.06 Tattoos

- A. Any tattoos in plain view of the public will be evaluated by the administration and if considered to be offensive in nature it will be covered at all times while on duty.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Organization

Chapter: General Administration

Subject: Uniforms

Code: 38

Adopted: 2025

38.01 Purpose

- A. To facilitate the display of a neat and professional appearance by members of the Fire Department by establishing policy and guidelines concerning Fire Department uniforms.
- B. To provide command, company, and functional identification for Fire Department personnel and the public.
- C. To provide the uniformity of dress for all uniformed members of the department.
- D. To establish guidelines for the placement of uniform accessories and guidelines on work shoes furnished by the department.

38.02 Policy

- A. All uniform clothing worn by Fire Department members shall meet Horn Lake Fire Department specifications and shall be neat in appearance.
- B. Fire Department members shall maintain, at least, the minimum amount of uniform clothing necessary to meet the standards set forth in this policy.
- C. Those uniforms, which are listed within this policy and on the uniform allotment, shall be the only officially recognized uniforms of the Horn Lake Fire and EMS Department.

38.03 Scope

This policy covers those uniforms worn by members of the Horn Lake Fire Department.

38.04 Authority and Responsibility

- A. The Chief shall have the authority to establish or change Fire Department uniform standards and policies.
- B. All members are responsible for maintaining a neat and professional appearance within the guidelines of this policy.
- C. All officers are responsible to ensure that those whom they supervise comply with Departmental uniform standards.

38.05 General

- A. All personnel shall wear and maintain their uniforms in such a manner so as to present a neat and clean appearance.
- B. Uniforms shall be clean and free of rips, tears, holes, and shall not be missing any required parts such as buttons, patches, and accessories.
- C. Only those uniform accessories, which are listed within this policy, have been approved to be worn with Fire Department uniforms.
- D. Uniforms are to be worn only during On-duty working hours unless otherwise approved by the administration. Employees shall not wear uniforms for private purposes such as working around the house, outside employment, or other like activities.
- E. Under no circumstances should any uniform class (A,B,C) (Hats, sweatshirts, etc.) Shall be worn off duty while an employee is purchasing adult beverages or in any establishment that you are participating in drinking adult beverages or any activity that the administration agrees to be detrimental to the City or the department's name. Disciplinary actions not limited to termination will follow if this policy is neglected.
- F. When reporting for normal duty all personnel shall wear a regulation uniform (class B or C). Approved sweatshirts may be worn. The only T-shirts to be worn with the class B uniform are those approved by the administration. The T-shirt may be worn as an outer garment in place of the regulation uniform shirt. If member is wearing a T-shirt it must be tucked in at all times.
- G. Employees shall wear their FULL uniforms during the hours of 0700 to 1900, unless working out. Workout hours are between the hours of 1200 and 1700. The maximum work out time is 2.5 hours.
 - 1. The shift's Lieutenant or Battalion Chief may make necessary exceptions as the situation dictates.
 - 2. At any given time, all shift members shall be in the same uniform unless otherwise specified by the shift's Lieutenant or Battalion Chief.
- H. All uniforms shall conform to the standards established in this policy by the administration.
- I. A complete Class "B" and Class "C" uniform shall be kept at members assigned station at all times while on duty and will be available for inspection when requested.

- J. Employees who terminate their employment with the department will be responsible for turning in all uniforms that were purchased on a clothing allotment.
- K. At 0630 Members may change into civilian clothes if they are leaving their normal tour of duty. If your unit receives a call before you are relieved you must change back into your duty clothes.
- L. Members of the Department will report for duty in a clean uniform no later than 0700.
- M. No civilian clothing will be worn over top of any Fire Department uniform at any time or Fire Department clothing over civilian clothing.

38.06 Work Uniform

The work (class B) uniform is worn by all personnel. The work uniform is an optional uniform for the Chief and Deputy Chief depending on the type of activity they are engaged in. The following items comprise the work uniform.

- 1. Short or long sleeve, blue for Officers, Paramedics, Drivers, Fire Fighters, and EMS Drivers, Black for administration staff.
- 2. Blue trousers for Division of Fire and EMS. Khaki, or blue for the administration.
- 3. Winter navy coat.
- 4. Black belt with silver buckle for Fire Fighters, EMS Drivers and Drivers, Gold buckle for Officers, Paramedics and Command staff.
- 5. Black shoes or boots.
- 6. Approved accessories.

The work (class C) uniform is worn by all personnel. The work uniform is an optional uniform for the Chief and Deputy Chief depending on the type of activity they are engaged in. The following items comprise the work uniform.

- 1. Navy Blue T-Shirt for Officers, Paramedics, Drivers and Firefighters.
- 2. Blue trousers for Division of Fire and EMS pants for division of EMS.
- 3. Winter navy coat.
- 4. Black belt with silver buckle for Fire Fighters, EMS Drivers and Drivers, Gold buckle for Officers, Paramedics and Command staff.
- 5. Black shoes or boots.
- 6. Approved accessories.

All of the fore mentioned items will be specified to a uniform company for bids, and this is where you will be able to acquire uniforms.

38.07 Dress Uniform

The full dress (Class A) uniform is worn by Fire Department members and staff officers, when attending meetings or dealing with the media, and such other times as the Chief may direct. The following items comprise the full dress uniform.

1. Dress blue trousers or Skirt.
2. Dress blue jacket.
3. Long sleeve white uniform shirt.
4. Black tie.
5. Black belt with buckle that is on the uniform allotment.
6. Black Patent leather shoes.
7. Black or dark blue socks. No ankle socks.
8. Dress hat.
9. White gloves

38.08 Boots

Black boots made of leather is all that will be speced out.

- A. No canvas shoes shall be worn.
- B. Boots will be kept clean and polished at all times while on duty.
- C. Boots with rips, tears, and/or holes will not be worn while on duty.
- D. Crocs and tennis shoes are allowed at the Lieutenant's digression.
They must be Navy Blue or Black in color. These are not allowed to be worn on calls. No decoration or bedazzling is allowed.
- E. No opened toed shoes.

38.09 T-Shirts

- A. T-shirts purchased with your clothing allotment should not be worn with civilian clothes while off duty or by family members.
- B. All department personnel will report to work in a uniform shirt and t-shirt combination or will be changed into their uniform no later than 0700.
- C. T-shirts may not be worn as an outer garment while on inspections or on any other occasion where the main purpose is personal contact with the public.
- D. T-shirts worn as the outer garment of the work uniform will be tucked in and remain tucked in.

38.10 Sweat shirts/Work Out Attire

- A. Only approved navy-blue sweatshirts may be worn. Such sweatshirts consist of blue with logo over the left breast and no markings on the back of the sweatshirt.
- B. The only work out attire that is allowed to be worn on duty is only what is offered on the uniform allotment .
- C. Sweatpants and GYM shorts are for working out.
- D. All approved gym shorts must come to the knee.
- E. All shirts worn during workout must completely cover the torso.

38.11 Uniform Accessories

- A. The basic uniform accessories issued to all personnel shall be listed.
- B. Patches, badges, insignia or any other type of accessories shall be worn only if approval has first been obtained from the administration.
- C. Patches.
 - 1. Fire service training patches issued by the State or EMS patches may be worn on the left sleeve of the uniform shirt below the flag.
 - 2. Only one (1) patch may be worn per uniform.
- D. Collar insignia
 - 1. Collar insignias will be worn one (1) inch above the tip of the uniform collar and centered on the collar.
 - 2. Collar insignias will be worn on the lapel one (1) inch from the outside seam of the winter coat.
- E. Badges as issued will be worn on the uniform shirt or coat over the left breast pocket.
- F. Nameplates as required will be worn centered over the right breast pocket with the bottom parallel to and touching the top of the pocket.
- G. On-duty personnel may wear only official Fire Department hats. Hats must be in good order and will not be worn backwards, or to the side.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Organization

Chapter: General Administration
Subject: General Gear Issue
Code: 39
Adopted: 2025

39.01 Purpose

- A. To provide a basic uniform clothing issue and protective clothing issue.
- B. To provide command, company and functional identification for Fire Department personnel and the public during routine operations and operations at alarms where protective clothing is utilized.

39.02 Policy

- A. All uniform clothing worn by Fire Department personnel shall meet Fire Department specifications and shall be neat in appearance.
- B. Fire Department members shall maintain at least the minimum amount of uniform clothing as specified in this policy under basic Uniform Clothing Issue.
- C. Those uniforms, which are listed within this policy, shall be the only officially recognized uniforms of the Horn Lake Fire Department.
- D. Each member of the Fire Department shall be issued a full complement of safety gear according to his or her respective positions within the organization.
- E. Members shall utilize such safety gear as they have been issued in accordance with this policy and any instructions, which they may receive, from their immediate supervisor.
- F. Members shall notify their immediate supervisor if any part of their safety gear issue becomes damaged, lost, or stolen.

39.03 Responsibility

- A. All members are responsible for maintaining a neat and professional appearance.
- B. All Officers are responsible to ensure that those whom they supervise comply with Departmental uniform standards.
- C. Supervisors are responsible for insuring that those under their command properly utilize safety gear.
- D. Members are responsible for the care and maintenance of their personal safety gear.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Organization

Chapter: General Administration
Subject: Protective Clothing
Code: 40
Adopted: 2025

40.01 Purpose

To provide policy and guidelines relative to the proper personal protection, in the form of protective clothing, to all Fire Department members exposed to dangerous situations and hazardous atmospheres and/or environments.

40.02 Policy

- A. Fire Department members shall utilize and wear protective clothing and safety gear as prescribed by these policies and procedures contained herein.
- B. Use of protective clothing as defined and prescribed within this policy shall be considered mandatory during emergency operations and/or whenever the chance or risk of personnel injury to Fire Department members may exist.
- C. The Fire Department shall provide clothing, which is currently available in the safety clothing market.
- D. All protective clothing shall be inspected by their Battalion Chief or Lieutenant and replaced as necessary.
- E. No unapproved repairs or equipment will be added to your assigned protective clothing.
- F. Employees who terminate their employment with the department are responsible for turning in all protective gear that was issued to them.

40.03 Responsibility

- A. Battalion Chief's have the overall responsibility to ensure that the members of their shifts abide by Fire Department policies regarding the use of protective clothing.
- B. All Fire Department members are directly responsible for their personal safety and shall utilize proper protective clothing as prescribed within this policy.

- C. It is the Fire Department member who is ultimately responsible to keep their protective clothing clean and inspected for problems.

40.04 Definitions

All Fire Department personnel shall wear and utilize full protective clothing as defined herein.

Full Protective Clothing

1. Helmet
2. Gloves
3. Hood
4. Turnout Pants (with suspenders)
5. Turnout Coat
6. Turnout Boots
7. Scotts Face piece

40.05 General Procedures

A. Emergency Operations

1. Personnel actively involved in fire fighting shall wear full protective gear. Any person without proper gear shall not enter the fire building or engage themselves in activities in the immediate area. If the Officer-In-Charge deems the fire building or adjoining buildings safe, individuals (Fire Fighters and civilians) with escorts may be permitted to enter.
2. All members shall wear and utilize appropriate clothing during emergency operations.
3. Members shall not remove their protective clothing until such time as their Company Officer or the Officer-In-Charge determines that such protection is no longer necessary or that a reduced level of protective clothing will be sufficient.
4. If in their opinion, operating conditions warrant a change, Company Officers may increase or decrease the level themselves and their personnel, but the responsibility to protect their personnel from injury remains with that Officer.
5. If, during multiple company operations, the Incident Commander specifies a certain level of protective clothing, then Company Officers shall not decrease that level for themselves or their personnel unless they are given permission to do so by the Incident Commander.

B. During Alarm Response

1. Members responding in or on Fire apparatus shall wear their protective clothing. Exceptions will be made for medical calls.
2. Operators are not required to wear their protective clothing while driving. After arriving on the fire ground and after performing all essential emergency operations, operators must put on their protective clothing less SCBA.
3. Those members responding in enclosed apparatus are not required to wear helmets during response but must have all their assigned protective clothing available once they reach the scene.
4. If, during a response to an alarm, an unusual condition or hazard presents itself, the Company Officer may, at their discretion, order all personnel, including drivers, into any level of protective clothing, which may be necessary, to protect said personnel from injury or death.

C. During Training

1. Members engaged in training sessions shall wear full protective clothing or as directed.
2. Officers or members conducting training sessions are responsible to ensure that all personnel involved utilize adequate protective clothing properly. Full protective clothing shall be worn during simulated hazardous environments.
3. When driver training, the protective clothing to be worn by those participating in the exercise shall be at the discretion of the Company Officer.

D. Routine Operations

1. Members involved shall use appropriate safety gear and/or protective clothing when engaged in routine activities, which may present a personal safety hazard. If members have questions regarding the need for safety gear for such routine activities or if they wish to obtain said gear, they shall contact their immediate supervisor prior to beginning said activities.
2. Members involved in Fire Company inspections or pre-planning activities or tours shall, when necessary, wear proper and adequate protective clothing during such inspections, activities, or tours, so as to provide protection from any hazard, which may be present in the area.
3. Members involved in fire company inspections, tours, or pre-planning activities when not wearing it, have full protective clothing available should the need arise.
4. When working around a charged hose that is being tested, all members shall wear protective helmets and gloves.

E. Maintenance

1. All safety gear such as breathing apparatus, etc. shall be cleaned and maintained in accordance with the manufacturer's instructions and departmental policy.
2. All protective clothing such as turnout clothing, helmets, and turnout boots shall be maintained in accordance with the manufacturer's instructions and departmental policy.
3. All protective clothing will be cleaned on a regular basis.
4. Protective clothing with small holes or rips are not to be considered needing replacement unless there is a considerable number of them.
5. All helmets are required to have all safety stripes as required by the department.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Organization

Chapter: Personnel Policies and Procedures
Subject: Out of Rank Testing Procedures
Code: 41
Adopted: 2025

41.01 Purpose

To provide a system for members of the department to fill an out of rank position if deemed necessary by the administration.

41.02 Policy

A. Fire Fighter riding out of rank as Driver.

1. Candidate must pass with a minimum of 70% or better on a test from Driver Operation.
2. Candidate must have 12 Months of service with Horn Lake F.D.
3. Candidate must have Mississippi State Fire Academy Certification in 1001&II.

B. Driver riding out of rank as a Lieutenant.

1. Candidate must pass with a minimum of 70% or better on a test from Fire Officer 1021.
2. Candidate must have 24 Months of service with Horn Lake F.D.
3. Candidate must have Mississippi State Fire Academy Certification in Drivers Operations or served as a Driver for at least 12 Months.

C. Lieutenant riding out of rank as Battalion Chief.

1. Candidate must pass with a minimum of 70% or better on a tests from (Haz-mat Tech, Rope Rescue I, Confined Space, S.O.G's / City Policy, and Fire Officer 1021).
2. Candidate must have 36 Months of service with Horn Lake F.D.
3. Candidate must have Mississippi State Fire Academy Certification in Fire Officer 1021 or served as Lieutenant for at least 12 months.

D. Battalion Chief riding out of rank as Deputy Chief or Chief.

1. Candidate must pass with a minimum of 70% or better on a test from (S.O.G's / City Policy)
2. Candidate must have 60 Months of service with Horn Lake F.D.
3. Candidate must have Mississippi State Fire Academy Certification in Fire Officer 1021&II and Fire Investigator 1033.
4. Candidate must have served as a Battalion Chief for at least 24 Months.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Organization

Chapter: Personnel Policies and Procedures
Subject: Promotion Policy
Code: 42
Adopted: 2025

42.01 Purpose

To establish guidelines and procedures relative to the promotion of members of the Fire Fighting Division to positions of Driver, Lieutenant, and Battalion Chief.

42.02 Policy

- A. The following policy and procedures are established for promotions within the Fire Department.
- B. It is the policy of the City of Horn Lake, Mississippi; to fill all vacant positions in the City service with the best qualified applicants available. All applicants will be given equal opportunity for appointment without regard to race, religion, color, sex, age, or national origin. The policy of the City of Horn Lake, Mississippi, is 1) to fill all vacant positions in the City service with the BEST QUALIFIED applicants available, and 2) to assure the right of all persons to work and advance on the basis of merit, ability, and potential.

For the purpose of measuring individual ability and aptitude for the work, a promotion board, appointed by the Chief will be conducted. Candidates may be required to take a written examination, a skills examination, oral Interview.

To be eligible to apply for promotion the candidate must have completed and is currently receiving out of rank pay.

Notification of a promotional position will be posted in a conspicuous place at each station. On the notification it will list any and all information needed for this promotion.

The promotion board will make a list beginning with the most qualified person to the person least qualified.

Promotions will be made by the list with the most qualified being promoted first and continue to the bottom of the list. The list will be valid for a minimum of six (6) months or until the list is exhausted before this time and the maximum time of twelve (12) months.

The any testing material will be evaluated by the Deputy Chief, and Chief.

The City of Horn Lake does not allow for lateral transfers because it feels that this would be an unfair practice to the employees that are currently employed by not allowing them the opportunity to advance.

42.03 Procedure

- A. Members desiring promotion shall take the promotion test for the desired position if given, and sit through the promotion board.
- B. The promotion board will rank the candidates in order from highest to lowest and submit the list to the Deputy Chief or Chief.
- C. Anyone on the promotion list that has a DA (disciplinary actions) in their file and is the next person to be promoted, may or may not be promoted pending Deputy Chief or Chief's decision. Attendance and evaluations may play a factor in any promotion.
- D. Future promotions shall come from the list of persons already tested and interviewed by the promotion board. When such list is used another promotion test and board will be held to keep current a list of promotable persons for each position.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Organization

Chapter: Personnel Policies and Procedures
Subject: Body Armor
Code: 43
Adopted: 2025

43.01 Purpose

To provide guidelines for the use of body armor as a practical and necessary safety measure and outline the proper care and storage of body armor.

43.02 Policy

Scope: This applies to all operational members of the department.

Definition: Level IIIA Body Armor:

Guideline: It is the policy of the department to allow law enforcement personnel to stabilize a situation/scene to the greatest extent possible prior to our personnel entering the area. As an added level of protection, Level IIIA body armor (exterior wear) has been deployed on ambulances throughout the department.

It is not the intent of the department to have members utilize body armor on a routine basis, but rather to have body armor available to personnel for incidents with potentially active threats or otherwise a risk to safety that the use of body armor could reduce or eliminate. A supervisor may mandate use of the body armor in any situation or circumstance that he/she feels may warrant its use.

Use Considerations: Body armor offers a higher level of protection during higher risk operations.

Wearing body armor is mandatory for the following:

1. Any "Active Threat" situation
2. Any event deemed appropriate by the incident commander.

Wearing body armor should be considered for the following:

1. Police/Swat standbys or situations involving violence (shooting or stabbing incident)
2. Incidents involving domestic violence, family dispute, or an address that has been flagged for known violence against public safety personnel
3. Any civil disturbance area
4. Any incident that may be interpreted as explosive device (suspicious box, bomb threat, etc.)

As feasible, personnel dispatched to the above types of incidents should don their armor prior to arriving on scene. Body armor will remain in-place until the incident commander or supervisor in charge has determined the threat has been cleared.

Department issued body armor is intended to be used for emergency response only. Do not use department issued body armor for PT or any other activities not related to emergency response or special events.

Individuals participating in the ride along program shall remain inside the vehicle at all incidents where body armor is being utilized by our personnel.

Storing and Inspection of Body Armor:

Proper storage and inspections of body armor can help maintain the life of the body armor. The body armor will be kept in the department issued bag. Body armor is personal protective equipment. Store body armor flat, not on an edge, and never bunched. Additionally, store it in a clean, dry assigned compartment out of sunlight. Do not place anything on top of the body armor.

Personnel should inspect the body armor as part of the ambulance check-off.

1. Inspect the body armor in its entirety for damage.
 - a. Any damage noted should be reported to your Lt. as soon as possible.
 - b. Any damaged body armor shall be removed from service until repaired or replaced.
2. Immediately notify the Lt. and Batt. If any armor is missing.

Cleaning of Body Armor: All armor and carriers are to be cleaned according to the manufacturer's specs.

Use of Personally Owned Body Armor: The use of personally owned external body armor is not permitted.

City of Horn Lake, MS Fire Department

Standard Operating Guide

Chapter: General Fireground Operations
Subject: Fireground Operations
Code: 44
Adopted: 2025

Single Story Residential Fire

1st Due Engine: (Fire Attack)

Lieutenant: The most important person to initiate the fire incident.

1. Complete 360 around the structure, your Driver should give you a visual of 3 sides when you arrive on most fire related incidents.
2. Give C.A.N report,
 - a. **C**onditions- what is burning and where its burning. (single story residential structure heavy smoke and fire on the Charlie side, exposures on the bravo and delta side)
 - b. **A**ctions- what if being applied at this scene. (offensive or defensive attack, rescue needed, occupied or unoccupied, fire reset etc.)
 - c. **N**eeds- What is needed. (water supply, manpower, etc.)
3. Your firefighter should deploy a handline according to your direction, in most cases to the alpha side of the structure and wait for orders.

Your radio traffic should be as clear and understanding as possible, show a Command Presence, and that this allows for Companies responding to you to give a mental picture in their mind of what is going on.

Some Considerations:

1. If there is possible entrapment or victim go ahead and request a 2nd EMS unit for transport.
2. The incident could be in a Cove on a Dead-End Street, at this point you can utilize a reverse lay for your water supply or lay into the cove should there be visible fire, if the Cove is long and congested with vehicles.
3. Our city has long driveways in all three territories. Take some considerations in your water supply, by dropping your supply line at the end of the driveway, for your 2nd due engine to establish a water supply to limit equipment around the scene.

Driver: The second most important job on the fire ground. If you don't have water, you can't fight fire.

1. Give your Lieutenant (if possible) 3 sides of structure that you're responding to, by doing this your engine should be just past the structure.
2. Deployment of handlines, maintaining pressures on handlines, securing the water supply from 2nd due, maintaining a full tank of water once a water supply has been established.
3. Be responsible for all equipment assigned to your apparatus.

2nd due Engine: (Water Supply)

Lieutenant: responsible for water supply.

1. Once water supply is established, **Command will be Notified.**
 - a. Report to the 1st due Engine with your firefighter, deploy a second handline to the Alpha side (out of the way from fire ground activities) for **2 in / 2 out.**
 - b. Once the Truck Company arrives on scene, the 1st due Engine and 2nd due Engine can alternate in the offensive attack, at the Incident Commanders discretion.

Driver: Assist the 1st due driver.

1. Go to 1st due Engine, assist the 1st due driver with the scene lights (if needed), deployment of tarp to the driveway or area that is suitable. Hand tools, spare SCBA bottles, hand lights, water cooler, should be placed on this tarp.

Truck Company: (Assist in Fire suppression)

Lieutenant:

1. Utilities need to be secured (water shut off, gas shut off, and meter pulled.)
2. If needed ventilation should be performed, vertical ventilation or horizontal ventilation at the Incident Commanders discretion, with positive pressure or negative pressure.
3. Be assigned to the Alpha side for further instruction, not limited to Salvage and Overhaul, fire extinguishment, checking for fire extension beyond the room of origin, this will be assigned by the Incident Commander at their discretion.

Driver:

1. Once you arrive on the scene, be observant of overhead obstructions.
2. Position the truck for accessibility, and functionality.
3. Stays with the truck for further assignments or instruction, but not limited to securing utilities, assisting with ventilation, and preparing the truck for the use of the elevated master stream device if this application is needed. This will be at the Incident Commanders discretion.

2 Story / Multi- Family dwelling Fire:

1st due Engine: (Fire Attack)

Lieutenant: The most important person to initiate the fire incident.

1. Complete 360 around the structure, your Driver should give you a visual of 3 sides when you arrive on most fire related incidents.
2. Give C.A.N report,
 - a. **C**onditions- what is burning and where its burning. (single story residential structure heavy smoke and fire on the Charlie side, exposures on the bravo and delta side)
 - b. **A**ctions- what if being applied at this scene. (offensive or defensive attack, rescue needed, occupied or unoccupied, fire reset etc.)
 - c. **N**eeds- What is needed. (water supply, manpower, etc.)
3. Your firefighter should deploy a handline according to your direction, in most cases to the alpha side of the structure and wait for orders.

Driver: The second most important job on the fire ground. If you don't have water, you can't fight fire.

1. Give your Lieutenant (if possible) 3 sides of structure that you're responding to, by doing this your engine should be just past the structure.
2. Deployment of handlines, maintaining pressures on handlines, securing the water supply from 2nd due, maintaining a full tank of water once a water supply has been established.
3. Be responsible for all equipment assigned to your apparatus.

2nd due Engine: (Water Supply)

Lieutenant: responsible for water supply.

1. Once water supply is established.
 - a. Report to the 1st due Engine with your firefighter, deploy a second handline to the Alpha side (out of the way from fire ground activities) for **2 in / 2 out**.
 - b. Once the Truck Company arrives on scene, the 1st due Engine and 2nd due Engine can alternate in the offensive attack, at the Incident Commanders discretion.

Driver: Position 2nd due Engine where it is accessible, but also out of the way for Truck Company Operations. Take consideration when laying your supply line, a reverse lay may be applied here.

1. Go to 1st due Engine, assist the 1st due driver with scene lights (if needed), deployment of tarp to the driveway or area that is suitable. Hand tools, spare SCBA bottles, hand lights, water cooler with cups, should be placed on this tarp. Assignments are not limited to deploying additional lines or assisting the Truck driver preparing to raise the ladder for the operation of the elevated master stream.

Truck Company:

Lieutenant:

1. Ground ladders **WILL** be deployed on windows at or above the second story for means of egress. The Aerial Ladder can be deployed off the Truck at the Incident Commanders discretion to aid in rescue operations or the use the elevated Master Stream Device.
2. Utilities need to be secured (water shut off, gas shut off, and meter pulled.)
3. If needed ventilation should be performed, vertical ventilation or horizontal ventilation at the Incident Commanders discretion, with positive pressure or negative pressure.
4. Be assigned to the Alpha side for further instruction, not limited to Salvage and Overhaul, fire extinguishment, checking for fire extension beyond the room of origin, this will be assignment will be given by the Incident Commander at their discretion.

Driver:

1. Once you arrive on the scene, be observant of overhead obstructions.
2. The position of the Truck should take precedence next to the 1st due attack engine, or what is suitable for the Incident.
3. Stays with the truck for further assignments or instruction, but not limited to securing utilities, assisting with ventilation, deploying ground ladders, and preparing the truck for the use of the elevated Master Stream Device if this application is needed. This will be at the Incident Commanders discretion.

Commercial Structure Fire:

1st due Engine: (Gather information)

Lieutenant: Company needs to go to the Alpha side meet with management, to learn what type of incident this could possibly be, thing to consider when talking to management.

1. Location of the fire panel?
2. How many employees?
3. MSDS sheets or any other Hazmat material?
4. Obtain keys to the building, all inside and outside doors, any gates that might need to be accessed.

After main operating hours go to the Knox box and fire panel room, this will give all information regarding the alarm and or the operating of the fire pump etc.

Driver: Stay with Engine, until directed otherwise. Repositioning of your engine may be needed for fire suppression.

2nd due Engine:

Lieutenant: Company needs to stage at the Fire Department Connection, Fire Pump Room, and determine if the fire pump has activated. If the fire pump has activated advise command. 2nd due should be prepared to lay supply line from the FDC to the water supply, that is out of the collapse zone. In most cases this is also where you can find the Main Alarm Panel and Knox BOX. The 2nd due Company should stage at this location until direction is given by the Incident Commander.

Driver: Should stay with the Company, staged at this predetermined location until directed otherwise, by the Incident Command or Company Officer.

Truck Company:

Lieutenant: Truck Company Operations should be directed by the Incident Commander, tagging the Truck where it is accessible, and can be deployed in any position around a commercial structure at anytime during the incident, but are not limited to Rescue operations, the use of the elevated master stream device where it is needed, and or the evacuation of victims involved in the incident.

Driver: Should stay with the Truck until otherwise directed by the Incident Command, or the Company Officer, but assignments are not limited to Rescue operations, the deployment of the Aerial Platform, and or fire suppression with elevated master stream device.

EMS Fireground Operations:

Single Story, 2 Story, or Multi- Family Dwellings

The 1st EMS Unit is primarily on scene for Fire Department members operating on the fire ground but can also triage patient for 2nd EMS unit to transport or they can transport at the Incident Commanders discretion. 1st incoming Unit on any fireground should be staged out on a cross street until all fire Companies arrive on scene, and a water supply is established. The purpose of this is for the Unit or Units, not to be trapped inside the scene, just in case they need to transport a patient or victim. In most cases there will be 2 Engines, a Truck Company, and Battalion that will arrive on scene, these Companies are a priority, on the fire ground. Once all the fire companies have arrived on scene, EMS Units should be staged in a manner, so that additional resources can enter and exit the fireground without obstructing means of egress.

If the 1st EMS Unit has triaged a patient, that Unit and 2nd unit should switch to **EMS 1** on the radio for patient information etc. this is to not impede on fire ground traffic on the fire primary channel. EMS Units on scene, are also not limited to assisting fire ground activities, also the REHAB of firefighters, getting water cooler and cups off fire equipment etc.

Equipment should be staged out of the way of fireground activities, but as close as possible to the scene. (**Weather Permitting**)

Medical Equipment considerations for staging:

1. Stretcher
2. Monitor
3. Thomas Pack
4. Burn Sheets
5. Full Spinal Immobilization
6. Mega Mover

Commercial Structure Fires

1st EMS Unit that arrives on scene, will be staged in the out of the way of fire ground activities, and serve as the triage unit. The Incident Commander will give directions to employees and their locations. If there is need and there are multiple patients or victims a mass casualty triage will be set up and will be coordinated through the Incident Commander, as well as the **Casualty Collection Point** or the **CCP**.

[illegible]
